

To: Tooele County Council
47 South Main Street
Tooele, UT 84074

Dear Council Members,

On behalf of **Lake Point**, we express our strong support for Tooele County's contract with GTC Consulting Services entered into on August 19, 2025. We recognize the importance of this partnership in strengthening intergovernmental relations and securing critical legislative funding for regional infrastructure needs.

In particular, we support the emphasis on obtaining funding for all new phases of the Mid-Valley Highway, including right-of-way acquisition, design, engineering, and construction. The Mid-Valley Highway is a vital transportation project that will improve mobility, enhance safety, and foster economic development for residents throughout Tooele Valley.

Our municipality is committed to working collaboratively with Tooele County and the other cities and towns in our region to advance this effort. By joining together in unified support, we can more effectively advocate for the resources necessary to build the infrastructure our growing communities require.

We appreciate the leadership of the Tooele County Council and look forward to continued partnership as these important initiatives move forward.

Respectfully,

Signature Alexis Wheeler Date 9/24/25

Alexis Wheeler

Lake Point City Council Chair
