The Mayor stated that the town intended to assume responsibility for ditch maintenance rather than leaving it to residents.

The Mayor announced the installation of a large emergency generator at the pump station, which was nearly operational. All water quality tests had returned positive results, and the town's Division of Drinking Water score had improved significantly. Once the new one-million-gallon tank was in place, the score was expected to reach zero. The Mayor noted that design and easement work for the new tank continued.

A new receptionist, Mellie, had been hired.

- Council Member announced that the community garden would host a butchering class on Friday and Saturday at the Vegetable Ranch, offering participants a hands-on experience.
- The Mayor highlighted the farmers market, which had been held several times at the town entryway. Plans were discussed to relocate it to the Chevron gas station if it expanded, potentially combining it with car shows and swap meets to create a community event. The Mayor emphasized that proceeds from garden sales were nonprofit and returned to the community.
- Council Member Palmer noted that the garden had distributed produce to residents in need during Monday meetings, fulfilling its community-oriented purpose.
- Council Member Taylor reminded residents that September was National Preparedness Month and encouraged them to review resources from [ready.gov](https://ready.gov). He confirmed that the town's wells and pumps now had emergency backup generators and fuel reserves.

### **Upcoming Community Events**

- Trunk or Treat was scheduled for Saturday, October 25, with pulled pork sandwiches to be served.

- A chili cook-off fundraiser organized by the Fire Association was scheduled for Saturday, November 1. Funds raised would support community projects, including the construction of a wheelchair ramp for a resident.

**DISCUSSION AND ACTION**

1. Ordinance O-2025-33, Proposed Zone Change, Open Space Transition Zone (OST) to Agricultural 10 Acres Zone (AG-10) for AV-1354-B, Applicant: Alan Dockstader.

\*Planning Commission recommended approval on September 10, 2025.

The Council considered Ordinance O-2025-33, a proposed zone change for parcel AV-1354-B from Open Space Transition Zone (OST) to Agricultural 10 Acres Zone (AG-10). The Mayor explained that the property, located south of the highway on Main Street near Hutchings Place, consisted of 80 acres purchased by Alan Dockstader and his brothers. Their intent was to divide the land into 10-acre lots for family use. Two brothers planned to take the first two lots, with the applicant eventually moving to the property as well.

The Mayor clarified that the action before the Council was to rezone the property to AG-10, which aligned with the Town's General Plan and rural agricultural character. Once rezoned, the applicant planned to return with a request for a lot split into 10-acre parcels. The Mayor asked if the Council had any questions or concerns, and none were raised.

The Council reviewed Resolution R-2025-21, which proposed adoption of a Purchasing Card (P-Card) Policy. The Mayor explained that the policy, prepared by Finance Director Michelle Kinney, would replace the town's use of debit cards with purchasing cards. This change was intended to provide greater security, align with practices of other municipalities, and streamline accounting processes. Debit cards would remain available for emergencies.

The policy included spending limits, such as a \$5,000 monthly purchase cap, along with prohibited uses including personal expenses and alcohol. Council Member Sair commended staff for preparing the policy.

The Council reviewed the Request for Statement of Qualifications related to impact fee studies, which were partially funded through a 50/50 Community Impact Board (CIB) grant. The Mayor explained that

towns were expected to update their SOQ process every five years and that Apple Valley had received two responses, from Sunrise Engineering and DBA.

Finance Director Michelle Kinney noted that this stage of the process was focused on qualifications rather than price. Council Members were provided scoring sheets to evaluate the proposals. Nate Wallentine of Sunrise Engineering presented the firm's qualifications, outlining expertise in stormwater, parks and recreation, transportation, and public safety planning, and emphasized the benefit of comprehensive impact fee studies to support growth. Council Members asked questions about drainage and flood control, which were addressed during the presentation.

The Mayor stressed the importance of planning for long-term infrastructure needs, including storm drainage improvements and 100-year flood capacity, while being cautious about debt tied to future growth projections.

After scoring, each Council Member indicated Sunrise Engineering as their top choice. The Council agreed to proceed with Sunrise as the recommended firm and moved to approve the final selection for contract negotiations.
