

Water Shortage Response Plan

Planning Commission | Workshop
October 2025

Why a water shortage response plan?

- *2021 Water Conservation Plan Update*
- Preparedness in case of:
 - Equipment malfunction
 - Distribution failure
 - Contamination
 - Drought
 - Other shortages

Water Conservation Plan to the Water Shortage Response Plan Timeline

Questions of particular interest

- Are the revisions in line with planning commission's priorities?
- Do you want to specify days of the week for watering?
- What are the exception criteria?
- Do you have a preference between adoption as a part of code or as a resolution?
- Some violations will be more enforceable than others. Is this a concern?
