Dear WCSD School Board,

We are asking for an amendment to our TSSA plan for this year because we had a large amount of excess TSSA funds that we were not anticipating. Therefore, we are requesting that we amend our plan to include supplies for extra-curricular activities that support core subjects. This falls under Goal #1 of our plan which states, "Improve literacy rates of our lowest readers by 2 grade levels, and see an overall improvement of 5% on RISE Proficiency Levels in ALL three Core Areas (Math, Language Arts, Science)." Additionally, we are requesting funds to provide additional software to enhance student learning in the core subjects, also falling under Goal #1.

Furthermore, we would like to provide additional software to help with our PBIS program, and provide motivational assemblies, both of which fall under Goal #2, which states: "Support Social and Emotional wellbeing of students, and improve overall student behavior and attendance at Pine View Intermediate."

We hope that this amendment can be approved. Thank you for your time and consideration.

Brandon Yost, Principal
