The citizen now requests to place an older single-wide trailer on the property as temporary housing during the rebuild of the original single-wide. **Council member Kay** inquired about the size of the proposed trailer and noted that the current ordinance does not permit such use. He also questioned why the matter had not been brought before the Planning and Zoning Commission. Additional questions were raised regarding the duration of the temporary housing and the citizen's intent to connect existing utilities to the temporary unit.

**Mayor Norton** suggested drafting a contract with the citizen to address the situation, though **Council member D Wilson** questioned the city's authority to do so and asked what would become of the temporary trailer once it is no longer needed. **Arrington** responded that the citizen would likely be able to sell the unit. **Council member Beagley** inquired whether the ordinance defines "temporary." **Mayor Norton** read from City Code Section 9-8-2(K), and **Council member Beagley** recommended referring the matter to the Planning and Zoning Commission for further review and determination of whether it should return to the City Council. **COUNCIL MEMBER BEAGLEY MOTIONED TO REMOVE THE TEMPORAY TRAILER ITEM FROM THE AGENDA; MOTION SECONDED BY COUNCIL MEMBER KAY AND CARRIED.**

The Mayor encouraged residents to look out for one another and assist neighbors when possible. Appreciation was expressed to city staff and council members for their continued dedication and hard work. Additionally, the potential purchase of water shares from a local resident is on hold while a new certificate is being obtained.

**Agenda Item 15. Department Reports**

**Fire Chief Majors** began by expressing gratitude to the City for providing funding that enables the department to continue serving the community. He noted, however, that the department is currently experiencing a decline in volunteer numbers, as many individuals are limited on time and unable to commit to unpaid service. Chief Majors shared that one firefighter is enrolled in courses through USU Eastern, offered by the BLM, and is greatly enjoying the experience. He also noted that two preschool field trips are scheduled to visit the fire station, and one class plans to deliver thank-you cards to the firefighters. In closing, he expressed appreciation to department members who assisted with traffic control during the Witch's Ball parade.

**Maintenance Department: Scott Gordon** reported that flower watering has concluded for the season. Seasonal workers were retained for an additional two weeks to assist with removing flowers and clearing drains following recent rainfall. The maintenance team is currently in the

A citizen had requested to remove and keep the old railing at the rodeo grounds, which has since been completed. The pavilion is expected to be available within the next three to six weeks. She also mentioned that she has not yet received the entertainment contract for next year's rodeo.

**Devin Wilson** reported that there has been one burial and one transfer this month. The audit committee has met, and its findings will be discussed at next month's City Council meeting. He shared that a member of the community recently visited his workplace to express appreciation for the consistently well-maintained condition of the cemetery. He extended thanks to the maintenance team and to Jennifer for their work.

**Judd Beagley** expressed his gratitude to the maintenance workers for their efforts in clearing the flowers and for keeping the city looking well-maintained. He is currently working on connecting with the Emery County Bureau to pursue potential funding opportunities.

**Gloria Wilson** reported that she also attended the audit committee meeting. She has been working alongside Lisa, from Hometown, to organize goodie bags for the upcoming Christmas party.
