**Call to Order**

Sullivan Love, Board Chair, called the meeting to order. 2:00 p.m.

**Action Items**

**1. CL-R1: Replace and Upsize Lehi/AF Outfall – Sundt Change Order No. 2**

Rich said we are nearing the end of CL-R1. We have multiple bypass pumps at the headworks as flow comes into the plant. This emergency meeting is due to Sundt being farther along than Rich realized and are going to close the bypass pumping November 7<sup>th</sup>. We have been working on the bypass plan for the installation of the gates which are needed for the operation of headworks and to coat the flume. Since early summer we have been looking at multiple ways to do this bypass pumping, and none have been acceptable. We are bypassing over 20 mgd and need to maintain safety and reduce the flow to three feet per second so our screens and grit chambers maintain operation during this part of the upgrade. We have redundant pumping to provide flow to each channel if by chance one of the screens fail. This has not been by any small means of making this happen. We are also installing and replacing gates to allow us to maintain operation in the future. Because this was unforeseen, we could not get the gates closed and open to be able to allow this to happen, so this change order is the plan to make this work. There are subcontractor costs for bypass pumping that are half of a million dollars, labor costs of about \$200,000, costs of materials and equipment and an additional 67 days for a total of \$1,022,845.28.

David Bunker made a motion to approve CL-R1 Sundt Change Order No. 2 for \$1,022,845.28. Mark Christensen seconded the motion. Sullivan Love, Chair, took a roll call vote. Those voting "Aye" – Sullivan Love, Brent Rummler, Brian Braithwaite, David Bunker, Joel Thompson, Blaine Thomas, Richard Nielson, Neal Winterton, Mark Christensen, Dave Norman, and Chandler Goodwin. Those voting "Nay" – None. The motion passed unanimously.
