All data shown is gathered from student performance from the State assessments administered at the end of the previous year.

It is collected from the USBE Data Gateway. Grades 3-8 participate in the RISE assessment every year. The 9th and 10 grades participate in the Utah Aspire Plus. The 11th grade participates in the ACT. For the ACT, a score of 18 is considered college or career ready (as determined by Utah State Board of Education.) The goal at ALA is to improve every year, identify areas of concern, and focus our efforts on those under-performing subjects/programs. **If a cell has ND or --, then there is insufficient data and/or the historical data is unavailable at this time.
