Rate increase effective February 1, 2026

# SFCN

## THINGS TO REMEMBER

- SFCN does not raise your Cable TV rates, broadcasters do.
  - Retransmission Consent ‘negotiations’ happen every 3 years and typically see the worst increases.
  - Most of the basic channels are free over-the-air with an HDTV antenna in much of Spanish Fork
  - SFCNtv and SFCN Internet are independent of each other.

# SFCN

## THINGS TO REMEMBER

- SFCN coax cable modem service is being decommissioned in 2026.
  - If you haven't contacted us to get moved over to fiber, please do so. We will get you on the schedule.
  - Fiber installation is free and provides a much greater speed and quality of service.
  - Fiber doesn't cost you any more, but it absolutely gives you more.
