Address

Payson, Utah, 84651

Phone Number

Are you 18 or older?

Yes

Are you a Payson resident?

Yes

Where did you hear about us?

Social Media

What is your motivation for service on the committee?

I have lived in Payson since birth and have a deep love and appreciation for the area that I call home. One of the things that roots me to this area is the beautiful canyon that we enjoy! I have multiple family members including my parents that actually live up the canyon. Having a voice and an active role in the development and utilization of this area would bring me great joy. I also see first hand the heavy recreational use of the canyon road and the potential dangers in place currently. I would have great pride in providing a safer solution that more people can enjoy the beautiful canyon and bench surrounding forebay.

How does your background, training, and experience lend itself to service on the committee?

I'm professional in the construction industry. I have been in the industry for over 10 years. I currently work for Jacobsen Construction where I oversee the Millwork Division. I'm also a Husband and Father of 2 little girls who love the outdoors.

Please list any relevant areas of expertise, education, or training you possess that will be helpful for service.

Prior to my role at Jacobsen I ran my own Millwork Installation Company working in nearly every sector including hospitality, medical, education, high end residential, public and beyond. At Jacobsen I continue to work in all of those sectors on a larger scale. Some of my current projects of relevance are the Salt Lake Temple major renovation, Multiple large developments in the Deer Valley Ski resort expansion project, and the Manhattan New York Temple Renovation. Although my experience is on the interior side of construction my professional career has taught me how to effectively manage relationships between subcontractors, owners as well as the general public as many of my projects have been public facing.
