BACKGROUND

Mayflower Mountain Resort is an all-seasons resort under construction in Park City, Utah. The property was purchased in October of 2016 by BLX Mayflower LLC and includes both inactive Mayflower and Star of Utah Mine adits, both of which still discharge into waters of the state. In November 2019, a pipe was installed to carry discharge water from the exit of the Mayflower Mine to McHenry Creek. Prior to this pipe, the mine discharge ran through a mine waste impoundment within Big Dutch Pete drainage, which flows into Jordanelle Reservoir. Similarly, in 2022 the Star Mine discharge water was re-routed around the Star Mine waste rock pile and enters Glencoe Canyon Creek down below the re-graded and capped pile, which then flows into McHenry Creek. McHenry Creek flows into Jordanelle Reservoir.
