The financial forecasts present, to the best of management’s knowledge and belief, the District’s expected results of operations and cash flows for the forecast periods. Accordingly, the forecasts reflects its judgment as of December 10, 2024, the date these forecasts were prepared, of the expected conditions and its expected course of action. The assumptions disclosed herein are those that management believes are significant to the forecasts. There will usually be differences between the forecast and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.

The financial statements are developed by the District to comply with GAAP, although there may be departures from GAAP not identified. SUMMARY OF SIGNIFICANT ASSUMPTIONS**

**Services Provided**

On June 2, 2020, the Municipal Council of the City of Provo, Utah (the City), acting in its capacity as the creating authority for the Medical School Campus Public Infrastructure District (the District), adopted a resolution creating the District.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District has no employees, and all administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

The County assesses, bills, collects, and distributes property taxes for all taxing jurisdictions within its boundaries, including cities, school districts, and special districts, in accordance with state law. Property taxes are collected on two types of assets: 1) personal property, which represents business assets other than real estate, and 2) real estate and improvements. Uncollected taxes, including delinquent amounts, are deemed to be substantially collectible or recoverable through a tax sale process that is conducted when property taxes have been delinquent for five years. Accordingly, no allowance for doubtful tax accounts is considered necessary. Property taxes becomes a lien against the property as of January 1 in the year in which taxes are due. Property valuation notices are mailed to property owners in July.

Property owners can appeal the assessed valuation no later than September 15. Tax notices are mailed to property owners on or before November 1. Payments are due November 30.

Property taxes due in November that are uncollected by the following April are reported as a property tax receivable on the financial statements. Because these taxes are not considered available to liquidate liabilities of the current period, they are considered to be a deferred inflow of resources. The County Treasurer, acting as a tax collector, must settle and disburse all tax collections to all taxing entities on a monthly basis. Tax collections are recorded as funds held in trust until disbursement.
