Mayor Barney reported that he has been working with Mason Machinery to facilitate the sale of the backhoe. He said they have two potential buyers but are still establishing the price. He also addressed the issue of keys to the community center being given out without the required paperwork and payment of fees being completed. He said if anyone needs access to the community center, they must be referred to either the mayor or the town clerk so we are able to monitor usage and avoid unnecessary liability. Each person accessing the facility needs to have a key fob so we are able to track usage.

The annual holiday celebration was discussed. Joe Reynolds suggested having Boren's Smokehouse cater the event and agreed to follow up with them. It was decided to have the party on Monday evening, January 5th. Gary had already ordered hats when he remembered his commitment to another party to do them. It was decided that the order could be held until the following year and he will contact the vendor for the hats. After further discussion, it was decided to hold the January town council meeting on Wednesday, January 14th where the swearing-in of the elected officials will take place.

Review & Discuss: Fall community party - 2026

Mayor Barney noted that several of the surrounding communities host a fall social for citizens in their towns. This was discussed and it was the consensus of the council conceded that our annual 4th of July celebration was sufficient.

Review & Discuss & Approve: New tables in community center

A discussion was held concerning the purchase of new tables to replace the 14 rectangle tables in the community center. Our tables are now over 20 years old and lots of the corners and edges are cracked and splitting. We could purchase new Lifetime 8-foot tables for approximately \$200 each (delivered). The supplier is in St. George and if we wanted to pick them up, they would be \$99 each. David suggested we could sell the old tables to defer some of the cost. Discussion was tabled for further discussion at a later date.

Review & Discuss: Issues with overflow water from the tank to Annabella Canal

Brandon Barney reported that they are currently working on this issue. It appears Annabella Canal Company feels that Central Valley runoff water is destroying the ditch. They have turned the water out of the canal and are looking for resolutions. Brandon said the north side of the canal is currently concrete, but he got the impression that the canal company wants to enclose it. It was Brandon's suggestion that the water be pushed to the river's edge. A big question was whether there was any right-of-way. This was referred to the town's attorney, Josh Christner, for further research. Mayor Barney tabled the issue for further discussion at a later date.

Review & Discuss: Jones & DeMille – Current coding updates

Kendal Welch and Matthew Lenhart of Jones & DeMille presented the current coding updates. They addressed Title 8 – Health and Safety, Title 9 – Public Peace and Welfare, and Title 10 – Vehicles and Traffic. It was felt that the times for noise and nuisance should be the same (10 pm – 6 am).

Jessica presented the Utah 250 program wherein a town could receive a \$1500 grant. The paperwork for this must be submitted by 12/31/2025. She will visit the office on 12/9/25 at 1:00 pm to facilitate the completion of the paperwork with the town clerk.
