

# Proposed Revitalization of the Historic Wallsburg School

**Preserving the past - Building the future of Wallsburg**

Saving and revitalizing the historic Wallsburg School should be a top priority for the Wallsburg community. Our proposal envisions restoring this beautiful landmark and transforming it into an elegant, high-end restaurant led by a five-star chef. The renovation will honor the school's original character, preserving the split-rail fence, milk barn, and overall charm, while introducing a refined dining experience.

To fully realize this vision, approval of a full-service restaurant liquor license will be essential. This license will support the fine-dining experience, strengthen the restaurant's long-term viability, & help make it a signature gathering place and economic asset for Wallsburg, all while preserving one of our community's most cherished historic landmarks. Thank you for your consideration and support in preserving one of Wallsburg's most cherished historic landmarks.
