Re: Possibility of Drone Light Shows
at Emery County Fair Celebrations

As you consider plans for next years Emery County Fair Celebrations, a new debate is lighting up the sky, to continue with traditional fireworks or consider using spectacular fascination of drone light shows. This information is to help in being aware of the pros and cons of these options.

Pros of Fireworks

These have always been used
Offer impressive visual effects
Gives off a feeling of reflecting
on the past and patriotism

Cons of Fireworks

Air pollution and leaves behind debris
Noise is loud, deafening roars causing
stress to infants, young children
adults, seniors, veterans and
pets.

They have limited design
capabilities

Pose fire hazards

Injuries

Drone light shows have emerged in recent years as an alternative to traditional fireworks. These are choreographed performances using swarms of LED equipped drones to create patterns and images in the sky.

Pros of Drone Shows

Environmentally friendly (reusable, with no emissions, substances or pollutants).

Safer (no risk of fire or explosions)

Quieter (ideal for noise sensitive areas, persons and pets).

Customize designs and animations

Drone exhibits can be interactive with electronic equipment, video screens and computers.

Cons of Drone Shows

Have limited flight times between 20 to 40 minutes

Sensitive to strong winds

Lacks traditional "boom" associated with fireworks

Potential for technical glitches

Price City did have a Drone Show for International Days 2025. The duration was approximately 20-30 minutes. Cost for the display was \$15,000.00, donated by 3 Price businesses. The contact for their Drone Show or to find out more information is:
