I love so many things about working at Bridge. First and foremost, I love the administration and their support of everything we are doing in SpEd. I love that we have conversations regularly to go over our successes and our goals. I feel like I am a working partner with them and we have the same vision for SpEd. I love that they have experience with SpEd and can guide me and give me perspective when I need background on our students.

I love the forward thinking and constant effort to improve our school. There is consistency in the expectations and support for all of the staff members. Our well-being is important and support is given without guilt.

Policy Change Summary: Specific Learning Disability (SLD) Identification Method

Proposed Change:

Update the Special Education policy related to the identification of Specific Learning Disabilities (SLD) to replace the current Alternate Method language with the Combination Method, which incorporates both Severe Discrepancy and Response to Intervention (RTI) data.

Rationale:

The proposed change allows the school to use a more comprehensive and flexible approach when determining SLD eligibility. By incorporating both discrepancy and RTI data, the school can better reflect a student's instructional history, intervention response, and overall learning profile. This approach supports more accurate identification and ensures decisions are based on multiple sources of data rather than a single methodology.

Impact:

- Aligns policy with current evaluation practices and guidance
- Provides teams with greater flexibility to meet individual student needs
- Strengthens defensibility and clarity of eligibility determinations
- Does not change eligibility criteria, timelines, or procedural safeguards

Recommendation:

Administration recommends approval of the policy update to adopt the Combination Method (Discrepancy and RTI) for SLD identification, effective upon board approval.

NEW POLICY LANGUAGE

1. Specific Learning Disabilities (Rules II.J.10.).

a. Definition (34 CFR § 300.8(C)(10); Rules II.J.10.a.).

Specific Learning Disabilities means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, that may manifest itself in the imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia, that affects a student's educational performance. Specific learning disabilities does not include learning problems that are primarily the result of visual, hearing, or motor disabilities; of intellectual disability; of emotional disturbance; or of environmental, cultural, or economic disadvantage.

b. Procedures for Identifying Students with Specific Learning Disabilities

(34 CFR §

300.307; Rules II.J.10.b.)

(1) Bridge Elementary Charter School has adopted the following method for determining a student's

eligibility under the specific learning disability category:

(a) A Combination method of:

(1) A process based on the student's response to scientific, research based intervention called the Response to Intervention (RtI) method which shows the student does not make sufficient progress to meet age or State-approved grade-level standards in one or more of the areas identified in Rule II.J.10.b.(3)(a); and

(ii) A discrepancy analysis which identifies that the student's scores demonstrate that a severe discrepancy exists between the student's intellectual ability and academic achievement in one or more of the areas identified in Rules II.J.10.b.(3)(a) which indicates the student exhibits a disability using a combination of both the RtI and a discrepancy analysis (the team must refer to the USBE Specific Learning Disability

Eligibility Guidelines when using this method).

(2) Additional team members (34 CFR § 300.308; Rules II.J.10.b.2.)

The determination of whether a student suspected of having a specific learning disability is a student with a disability must be made by the student's parent(s) or adult student and a team of qualified professionals, which must include:

(a) The student's regular teacher; or (b) If the student does not have a regular teacher, a regular classroom

teacher qualified to teach a student of his/her age; or (c) For a student of less than school age; an individual qualified by the USBE to teach a student of his/her age; and (d) At least one person qualified to conduct individual diagnostic examinations of students and interpret the results of those assessments (as per the

publisher's assessment administration criteria), such as a school psychologist, speech-language pathologist, reading teacher or reading specialist, or special education teacher .

(3) Determining the existence of a specific learning disability (34 CFR 300.309;Rules II.J.10.b.3.)

The team described may determine that a student has a specific learning disability if:

(a) The student does not achieve adequately for the student's age or to meet State-approved grade-level standards in one or more of the following areas, when provided with learning experiences and instruction appropriate for the student's age or State-approved grade-level standards:

(i) Oral expression;

(ii) Listening comprehension;

- (iii) Written expression;
- (iv) Basic reading skills;
- (v) Reading fluency skills;
- (vi) Reading comprehension;
- (vii) Mathematics calculation;
- (viii) Mathematics problem solving.

20(b) The group determines that its findings are not primarily the result of:

- (i) A visual, hearing, or motor disability;
- (ii) Intellectual disability;
- (iii) Emotional disturbance;
- (iv) Cultural factors;
- (v) Environmental or economic disadvantage; or
- (vi) Limited English proficiency.

(4) The specific learning disability must adversely affect the student's educational performance.

(5) The student with the specific learning disability must need special education and related services (34 CFR § 300.8(a); Rules II.J.10.b.5.)

(6) The team must determine that the specific learning disability is the student's primary disability.

c. Evaluation (34 CFR § 300.309(b)–(c); Rules II.J.10.c.)

(1) An evaluation must include a variety of assessment tools and strategies and cannot rely on any single procedure as the sole criterion.

(2) To ensure underachievement in a student suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the group must consider, as part of the evaluation:

(a) Data that demonstrate that prior to, or as a part of, the referral process, the student was provided appropriate instruction in regular education settings, delivered by qualified personnel; and

(b) Data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the student's parent(s) or the adult student.

(3) Bridge Elementary must promptly request parental consent or consent of the adult student to evaluate the student to determine if the student needs special education and related services, and must adhere to the 45-school-day evaluation timeframe, unless extended by mutual written agreement of the student's parent(s) or adult student and a group of qualified professionals:

21(a) If, prior to a referral, a student has not made adequate progress after an appropriate period of time as determined by Bridge Elementary when provided appropriate instruction, and

(b) Whenever a student is referred for an evaluation.

(4) Observation (34 CFR § 300.310(a)–(c); Rules II.J.10.b.4.)

Bridge Elementary Charter School must ensure the student is observed in the student's learning environment (including the regular classroom setting) to document the student's academic performance and behavior in the areas of concern.

(a) The team must decide to:

- (i) Use information from an observation in routine classroom instruction and monitoring of the student's performance that was done before the student was referred for an evaluation; or
- (ii) Have at least one member of the team conduct an observation of the student's academic performance in the regular classroom after the student has been referred for an evaluation and parental consent or consent of the adult student is obtained.

(b) If the student is a home-schooled student, Bridge Elementary Charter School may determine how to conduct the observation and who will conduct it.

(c) In the case of a student of less than school age or who is out of school, a group member must observe the student in an environment appropriate for a student of that age.

(5) Specific documentation for the eligibility determination (34 CFR § 300.311; Rules II.J.10.b.5.) The team's documentation of the determination of eligibility with a specific learning disability must contain a statement of:

- (a) Whether the student has a specific learning disability;
- (b) The basis for making the determination;
- (c) The relevant behavior, if any, noted during the observation of the student and the relationship of that behavior to the student's academic functioning;
- (d) The educationally relevant medical findings, if any; and
- (e) Whether the student meets the criteria below.

(f) Combination (RtI and discrepancy analysis). Does not make sufficient progress to meet State-approved age- or grade-level standards when using a process based on the student's response to scientific evidence-based interventions and obtains scores that demonstrate that a severe discrepancy exists between the student's academic achievement and intellectual ability in one or more of the areas of specific learning disability.

- (i) Bridge Elementary Charter School has a process that assesses a student's response to scientific, research-based intervention as part of determining if the student has a specific learning disability. This process must include:
- (ii) High quality research-based instruction delivered by qualified staff in the general education setting; and
- (iii) Assessment of student performance that specifically includes universal screening and progress-monitoring; and
- (iv) Multiple tiers of evidence-based interventions to address individual student difficulties; and
- (v) Documentation of systematic and regular parent, adult student, and/ or family involvement and communication as well as notification about:
 - (A) The State's policies regarding the amount and nature of student performance data that would be collected and the general education services that would be provided (the team must refer to the USBE Specific Learning Disability Eligibility Guidelines when using this method);
 - (B) Strategies for increasing the student's rate of learning; and
 - (C) The parent's(s') or the adult student's right to request an evaluation; and
- (vi) System supports (e.g., leadership, problem-solving, data management systems, coaching and collaboration, professional learning, and measures of fidelity) in place to ensure effective implementation; or
- (vii) The instructional strategies used and the student-centered data collected.
- (viii) The team must document that the student's performance on a standardized, norm-referenced, individually administered achievement measure in the area of the suspected disability, and
- (ix) That the student scored above the intellectual disability range on a standardized, norm-referenced, individually administered measure of intellectual ability and
 - (A) The comparison of the standard scores on the tests of achievement and intellectual ability using an LEA board-approved and USBE-reviewed discrepancy analysis. The team must document consideration of the discrepancy analysis and the team's determination of whether or not it represents a severe discrepancy.

23(6) The determination of the team concerning the effects of a visual, hearing, or motor disability; intellectual disability; emotional disturbance; cultural factors; environmental or economic disadvantage; or limited English proficiency on the student's achievement level;

(7) The requirements of Rules II.D.–H. must be met.

(8) Each team member must certify in writing whether the report reflects the member's conclusion (34 CFR § 300.311(b)). If it does not reflect the member's conclusion, the team member must submit a separate statement presenting the member's conclusions.
