

The University of Utah Master Plan is the roadmap for the U's 20-year plan for campus development. With a particular focus on how campus can facilitate student engagement and excellence, the plan builds the foundation for supporting the University's mission, vision, and academic programs into the future.

The Campus Master Plan will:

- Create an inspiring campus that fosters academic and innovative excellence for students, faculty, staff, and the community
- Provide state-of-the-art facilities to support the University's ongoing mission of expert teaching, life-changing research, and selfless service
- Foster interdisciplinary collaboration and interaction
- Establish the U's campus as a valued educational and entertainment resource for the public
- Provide functional and sustainable access and transportation
- Enhance the U's stunning natural landscape
- Establish the University as a leader in environmental stewardship

Building
on
tradition.
