### **AWARDS, CEREMONIES, AND PROCLAMATIONS**

#### **A. ESSENTIAL PIECE AWARD RECOGNITIONS**

Craig Thomas, Community and Culture Director, introduced and presented the Essential Piece Award recipients.

### **PUBLIC COMMENT PERIOD**

Jim Vesock commended the Essential Piece Award winners, noting his experience volunteering with many of them and praising the My Hometown project. Jim discussed development agreements, emphasizing that once an agreement has been established through the planning process, it should not be repeatedly reopened or renegotiated. He expressed support for the Council's approach of considering the city's benefit before making changes and cautioned against creating time limits or additional modifications that could set precedents for future cases. Finally, he shared his experience as an HOA president in Idaho, noting challenges with private road maintenance and enforcement. He suggested exploring ways for private communities to manage these issues more effectively without placing undue burden on HOA officers.

Karina McClellan from Ability Inclusion Services shared that their nonprofit supports adults with cognitive and developmental disabilities and operates a community day program in West Valley. She announced the completion of a new, fully ADA-compliant, 12-unit residential complex located just one mile from their center. She highlighted that the project was completed in under a year, praised the team effort, and thanked the City of West Valley—particularly the Economic Development staff—for their support. She invited the Council and community members to the ribbon-cutting ceremony to celebrate this milestone in accessible housing. She described the residential program, which provides support for daily living skills, grocery shopping, community engagement, and financial and medical case management, and noted that two units are available for new residents.

Additionally, she invited attendees to the Spring Fling Gala on April 16 at the Utah Cultural Celebration Center. The gala will raise funds for the Community Day program and a new summer youth program for students with disabilities ages 18–22. The summer program is designed to bridge the transition from school to adulthood through community-based learning, volunteering, career exploration, and life skills development, providing structured opportunities for students and stable support for families. Karina emphasized that these initiatives strengthen long-term planning and stability for participants and their families.

Rich Beaudoin, a West Valley City resident for 20 years, addressed the Council. He first discussed the city's affordable housing challenges, citing statistics that in 2023:

- 41% of households speak a language other than English at home
- 12% of households live below the poverty line
- 41% of households spend more than 35% of their income on rent

He noted there are approximately 39,000 single-family homes and 11,000 rental units for the city's 140,000 residents, emphasizing that simply building more homes will not solve the housing problem. He suggested that reducing demand, including through programs targeting criminal activity, could help increase housing availability. Rich also raised a safety concern regarding drainage and irrigation ditches along 6400 West. He observed children and adults walking and biking in the dark with limited space between the ditches and the road, highlighting the risk, especially during snow. He suggested installing piping and sidewalks to improve safety. Finally, he expressed support for the city's efforts to celebrate the nation's 250th birthday and mentioned a local dirt lot near Newton Farms Park as a concern.

Mike Markham expressed support for maintaining strict adherence to development rules and agreements. He emphasized that builders should honor their commitments and follow city standards, such as the requirement for three-car garages. Mike voiced disappointment that the city had previously allowed deviations from these rules and stressed the importance of upholding them to maintain the city's image and property values. He noted that rules exist to help and protect residents, and builders unwilling to comply should develop elsewhere. He concluded by affirming that enforcing rules is more important than making exceptions.

### **RESOLUTION 25-189: AUTHORIZE THE PURCHASE OF TWO FIRE ENGINES FROM SIDDONS-MARTIN EMERGENCY GROUP**

Mayor Lang presented proposed resolution 25-189 that would authorize the Purchase of Two Fire Engines from Siddons-Martin Emergency Group.

Written documentation previously provided to the City Council included information as follows:

West Valley City Department seeks to purchase two Pierce fire engines to replace two of our current engines in our frontline fleet.

The two engines we are looking to replace are both 2019 Rosenbauer engines with approximately 82,000 miles on them. The build time for a new fire engine is approximately 26-28 months. We anticipate that our current Rosenbauer engines will be well over 110,000 miles by the time the new Pierce engines arrive.

Our replacement or rotation plan would put the 2019 Rosenbauer engines into reserve status. In turn, we would put two of our current reserve engines that were built in 2005 into a training designation status. The two 2005 engines that will be designated for training are not reliable for reserve status any longer.

Siddons-Martin Emergency Group is a participant in the Houston-Galveston Area Council, an interlocal entity offering purchasing and procurement services to municipalities around the nation. West Valley City is a member of HGAC and is entitled to purchase services at HGAC prices and from HGAC affiliates and members. Since this purchase is in accordance with HGAC procedures, procurement requirements have been satisfied pursuant to Section 5-3-108 of the West Valley City Municipal Code. The price indicated below is a competitive price and the product meets the City's needs.
