This section of land was not approved as part of the original Industrial Park subdivision and remained titled in the name of Mt. Pleasant City. Councilmembers Beck and Beesley stated they would like the contract to include a time clause allowing the City to reclaim the property if development does not begin within a specified timeframe.

Monte Bona stated that the developer is ready to begin construction immediately and would have already started if not waiting for the property transfer. He also noted that the original Industrial Park contracts require development to commence within two years of the property purchase.

This item will be voted on by the City Council.

Citizen Jeff McDonald commented that the location would be an ideal site for a steel factory, stating it is a perfect setup and expressing his support for bringing another business into the community. There were no additional public comments.
