Department of Alcoholic Beverage Services Five-Year Building Plan

Utah Code § [32B-2-505](#)

In accordance with Utah Code § 32B-2-505, the following details the Department of Alcoholic Beverage Services' (DABS) annual five-year plan for building and remodeling of state retail liquor stores. The plan is informed by a market survey conducted every other year as well as current population growth and density projections, replacement and remodel needs for aging stores, an analysis of locations within the state where business and consumer access to a store is limited, and projected costs for new construction and remodels based on current data.
