

City of Washington Terrace

Minutes of a Regular City Council meeting

Held on January 20, 2026

City Hall, 5249 South 400 East, Washington Terrace City, Utah

MAYOR, COUNCIL, AND STAFF MEMBERS PRESENT

Mayor Mark C. Allen

Council Member Anna Davidson

Council Member Zunayid Z. Zishan

Council Member Cheryl Parkinson

Council Member Jeff West – excuse

Council Member Michael Thomas

Fire Chief Clay Peterson

The City of Peterborough
Public Works Director Jake Meibos

Public Works Director Jake Mc
City Recorder Amy Rodriguez

City Recorder Amy Reiling
City Manager Tom Hanson

OTHERS PRESENT:

None

1. WORK SESSION :

5:00 P.M.

Topics to include; but are not limited to:

- Capital Investment Plan review
 - **Fire Department CIP**

Chief Peterson outline the capital equipment that will need to be placed in the Capital Improvement Projects list over the next 20 years. He stated that the Department received a Rosenbauer Timberwolf Fire Truck through a grant in 2024, however, he noted that the chassis is a 2021. He stated that this is on a 15-year replacement plan.

Chief Peterson stated that the city purchased a used 2002 100-foot ladder truck about 15 years ago from West Valley City. He stated that the electronics are over 20 years old, making them unreliable. He stated that replacement parts are scheduled for 2027. He stated that if we were to go new, it would cost 2.2 million. He stated that he would rather find used engines for a lower price, noting that the ladder trucks do not get used as much as the other engine. Chief stated that we need to have at least 2 vehicles in case one is out of service. Chief stated that we need to keep a ladder truck to keep our ISO rating. Chief Peterson stated that there are other ladder trucks in the area, however, if the trucks are on a medical call or on another call, it is out of service for anything that we may need. He stated that we shouldn't be reliant on other cities. Chief Peterson stated that if we lose our ISO rating, it would mean insurance rate increases for residents within the city.

Chief Peterson stated that the 2023 Ford F550 Chassis was purchased through the CDBG Funding Program. He stated that the replacement plan is set for 2033. He stated that this apparatus is mainly used for brush fires and is not used as much as other apparatus.

46 Chief Peterson stated that the Scott SCBA Fill Station purchased through grants are scheduled to be replaced
47 in 2031. He stated that the tank replacement will cost around \$90,000.
48

49 Chief Peterson stated that the motorolla radios show as a high item because it includes all the radios in the
50 department. He stated that replacement cost will be \$95,000. The radios have a 10-year shelf life to maintain
51 up to date current equipment. He stated that it could be sooner if the state changes their radio requirements.
52

53 Chief Peterson stated that he does not have many items in his CIP, however, they are all high ticket items.
54 He stated that the biggest consideration to think about now is the 2023 Ford F550 replacement.
55

56 He stated that he recommends finding a demo instead of a brand-new engine. He stated that if we were to
57 build an apparatus, it would take four to five years to build and receive. Council Member Zishan noted that
58 it seems like we are spending too much effort on fixing the ladder truck when there is one in South Ogden.
59 Council Member Parkinson stated that there are concerns about having a ladder truck that isn't used much,
60 but recognizes that a ladder truck could service those buildings in the city that could use a ladder truck. She
61 also noted that having two vehicles with different functions may be better than having two of the same
62 vehicle doing the same functions in the city.
63

64 Chief Peterson stated that there needs to be heavy consideration on replacing the truck in 2027.
65

- Public Works CIP

66 Jake Meibos explained how the Public Works Capital Projects fit within the Council Policy Priorities.
67 Meibos stated that he will focus on the 0-5 CIP projects for the department.
68

69 Meibos highlighted the road reconstruction projects for 0-5 years (estimated FY 2028-2031). He stated that
70 funding is in the current budget, however, nothing has been approved at this time. Meibos noted that much
71 of the infrastructure due for replacement was installed in 1957.
72

73 Meibos stated that the culinary water projects coincide with each other and outlined the projects for FY 27-
74 2030. Meibos explained that he looks at the estimated life of the pipe (50- 60 years), the maintenance history
75 of the pipes, and the road projects that may coincide with the work when determining timeline for projects.
76 Meibos stated that some grants are available for water structure, however, he noted that it is hard to find
77 grants for water maintenance projects. Hanson stated that we strategize to use "pay as we go", and other
78 times GO bonds may need to be considered. Hanson stated that he doesn't know what our capacity for future
79 grants would be.
80

81 Meibos explained the CIP projects associated with storm drains. Hanson stated that the Regional Detention
82 Basin at TH Bell Jr High is of high importance.
83

84 Meibos explained the 2020-2025 CIP projects that are completed, noting that the total cost was \$7.8 million,
85 with \$ 2.5 million received through grant funding.
86

87 Meibos explained his asset management planning philosophy, noting that the planning is to ensure that we
88 get the most value from our assets and have the financial resources in place when they need replacement.
89 He noted that infrastructure projects are typically high value projects that are critical to communities.
90

91 Meibos explained the proposed lighting plan for the parks. He stated that they may be part of phase four of
the Pickleball Plaza.

94 **MAYOR, COUNCIL, AND STAFF MEMBERS PRESENT**

95 Mayor Mark C. Allen

96 Council Member Anna Davidson

97 Council Member Zunayid Z. Zishan

98 Council Member Cheryl Parkinson

99 Council Member Jeff West – excused

100 Council Member Michael Thomas

101 City Recorder Amy Rodriguez

102 City Manager Tom Hanson

103 Lt. Sean Endsley, Weber County Sheriff

104

105 **OTHERS PRESENT:**

106 None

107

108 2. **ROLL CALL** 6:00 P.M.

109

110 3. **PLEDGE OF ALLEGIANCE**

111

112 4. **WELCOME**

113 Mayor Allen expressed his condolences to the West family.

114 5. **CONSENT ITEMS**115 5.1 **APPROVAL OF AGENDA AND JANUARY 6, 2026, COUNCIL MEETING**116 Mayor Allen stated that the closed session will be postponed until the next meeting. It will
117 be taken off of the agenda. Corrections to two attendee's information will be made to the
118 final minutes. Item 5.1 approved by general consent

119

120 6. **CITIZEN COMMENTS**

121 There were no citizen comments.

122

123 7. **NEW BUSINESS**

124

125 7.1 **DISCUSSION/ACTION: CONSIDERATION TO RECOGNIZE INDIGENOUS
126 PEOPLE'S DAY IN LIEU OF THE COLUMBUS DAY HOLIDAY**127 Council Member Zishan stated that Columbus did not really discover Americans and stated that there is a
128 lot of misconceptions about Christopher Columbus and stated that many states and hundreds of cities are
129 appropriately recognizing Indigenous People's Day instead of honoring a "genocidal maniac". He stated
130 that he feels that it is about time that we recognize that day as Indigenous People's Day. He stated that it is
131 a national holiday, but not everyone observes it like a federal holiday.

132

133 Council Member Parkinson stated that she taught U.S. history and worked through the ideas of expansion
134 and exploration of the new world, stating that Christopher Columbus was recognized as one of the first
135 great leaders for exploration and expansion of the new world. Council Member Parkinson stated that he
136 had a lot of things going on at that time that were good and also noted that there were a lot of things that
137 happened that were horrible. She stated that we need to recognize that his exploration did open up the

138 expansion of more exploration to our country.
139 Council Member Parkinson stated that indigenous people were very impacted by all exploration that came
140 here, not just Columbus. Council Member Parkinson stated that their experiences were tragic. She stated
141 that they were impacted by diseases, slavery, war, fighting and pushing them out of the territory.
142
143 Council Member Parkinson stated that she looked in the pros and cons of why it is called Columbus Day
144 and why so many people are looking at it as Indigenous People's Day.
145 She stated that she found that the issue was taken to President Biden in 2019, that the president chose to
146 accept and recognize both holidays on that day. She stated that it recognizes the discovery of exploration
147 of our nation and the impact of indigenous people and how important their role is in our country history.
148 She stated that she would like to follow that example and recognize both and not turn away from
149 Columbus day because of the impact of exploration on the country's development.
150
151 Council Member Zishan stated that when it comes to whom we are celebrating, keep in mind that
152 Columbus did not come to explore, he was looking for India to trade spices. Council Member Zishan
153 stated that the indigenous people's population was 250,000 and within a decade it was down to 220.
154 Council Member Zishan read a passage from the diary of Columbus and how he explained the Taino
155 people who first greeted him. The passage described his thoughts on the people and how they would easily
156 be made into servants. Council Member Zishan stated that the abuses of women and children are
157 unspeakable and asked why we would celebrate someone like that.
158 Council Member Parkinson stated that the enslavement that happened during that time frame was part of
159 the creation of the idea for Columbus to work in the slave trade. She stated that the slave trade expanded
160 into the Americas with some of the indigenous people putting other tribes into enslavement by selling
161 them to Europeans. She stated that Columbus was not the only person in the slave trade noting that it was
162 an acceptable thing in that area and in that time. She stated that we have different eyesight when we are in
163 a situation rather than when we are looking back upon it. Council Member Parkinson stated that hopefully
164 we learn from these things. She stated that her view is not to look upon Columbus as a hero, but rather that
165 his expansion and exploration really lead into what we have as the United States.
166
167 Council Member Thomas stated that he is open to combining them both. He stated that both expanded in
168 different ways. He stated that the indigenous people found with one another and did different things. He
169 stated that the Europeans are known to explore, expand and grow and lose colonies in different areas. He
170 stated that he does not want to totally exclude Columbus Day.
171
172 Council Member Davidson stated that there are two perspectives, one glorifies an explorer in colonial
173 beginning and one confronts suffering and celebrates the survival of indigenous people. She stated that it is
174 best not to erase history and believes it is a good compromise to not erase how it began and also celebrate
175 the people who suffered the most. She stated that that we perpetuate the cycle if we don't learn from it.
176
177 Council Member Parkinson stated that she wants to make sure we are looking forward and respectfully
178 from where we are today.
179

Motion by Council Member Thomas
Seconded by Council Member Parkinson
To approve to combine the Columbus Day and Indigenous People's Day Holidays
Approved (3-1)

Aye- Council Member Parkinson
Aye-Council member Thomas
Aye- Council Davidson
Nay- Council Member Zishan

Council Member Zishan stated that he opposes, noting that he understands that one this is remembering what happened, and the other thing is celebrating. He stated that when you make a day out of a genocidal maniac, you are celebrating him still and stated that he will not vote for that.

7.2 DISCUSSION/MOTION: APPROVAL OF THE CITY CONTRIBUTION AMOUNT FOR THE COMMUNITY DEVELOPMENT BLOCK GRANT 2026 APPLICATION

Rodriguez stated that the Council approved the CIP priorities list for CDBG project applications. The 500 West Trenchless Sewer Main Rehabilitation Project was chosen due to the high priority nature of the project. The project will include rehabilitation of failing and blocked sewer main lines on 500 West between 4400 and 4800 South. Rodriguez stated that the CDBG application is due at the end of the month and is near completion. Rodriguez stated that to maximize as many points as possible in the rating and ranking system, the City will commit to funding 38.5 percent of the project as our matching contribution. Rodriguez stated that the engineer's estimate for the project is \$350,886. The application will ask for \$215,795 in CDBG funding, with the remaining \$135,091 commitment from the city. Rodriguez stated that formal bidding will be held in April or May before the final application is due. Staff is asking for approval for the contribution match of 38.5 of the project as outlined in the staff report. Rodriguez stated that the project has been budgeted and partially funding in the Sanitary Sewer Fund.

**Motion by Council Member Parkinson
Seconded by Council Member Thomas
To approve the 2026 CDBG application and
Contribution match of 38.5 as outlined in the staff report
Approved unanimously (4-0)**

8. COUNCIL COMMUNICATION WITH STAFF

Council Member Thomas thanked the Public Works crew for their hard work on the recent water leaks and pipes.

Parkinson stated that she spoke with Hanson on how they handle the situations when the crew is working all evening through the morning. She stated that it is amazing that the Public Works Crew is basically on call 24/7. She stated that she is not sure if residents realize that and stated that she appreciates them very much.

Mayor Allen stated that there are some new Mayors on the subcommittee concerning the Weber County Transfer Station issue. He stated that it is looking optimistic moving forward.

Council Member Zishan stated that the ISO rating is made out of 50% percent fire, 40% percent water, and 10% emergency communications. He stated that he would like to learn more on the ISO rating and how it would affect our residents moving forward.

230
231

232 **9. ADMINISTRATION REPORTS**

233
234 Hanson stated that Meibos is working with the contractor on the pricing on the Rohmer North End Project.
235 Hanson stated that Grava is working on the Victory Park Project request for Proposal.

236

237 **10. UPCOMING EVENTS**
