

Utah DOTS Partnership

Ensuring every Student succeeds, keeping parents involved, preparing Utah for tomorrow's jobs

Why act now?

Utah has the unique opportunity to lead the nation in shaping responsible AI education rather than adopting fragmented tools later. With 60% of schools already using SchoolAI, we can consolidate momentum into a unified, Utah-values-driven ecosystem that prioritizes parental rights, teacher empowerment, and student safety. Acting now positions Utah as the architect of AI education standards other states will follow, while delaying means accepting disparate solutions later.

Current Utah momentum

60% of Utah schools already use SchoolAI

950+ Utah institutions already using SchoolAI

What this partnership delivers

Parent visibility into every AI conversation

Teachers stay at center with real-time insights

Personalized AI tools for every student

Statewide data privacy & AI safety standards

Real-time learning analytics for leaders

Replaces fragmented ed-tech spending

3-year success milestones

<p>▾ Fall 2026</p>	<p>Every student has supervised AI tutor access</p>
<p>▾ Fall 2027</p>	<p>Statewide Student Success Platform with safety guardrails deployed; early improvement indicators</p>
<p>▾ Fall 2028</p>	<p>Documented cost savings exceed partnership investment</p>

Why Utah leads with SchoolAI:

Utah values at the center, not an afterthought

- Establishing the Education Innovation Council ensures Utah priorities shape every feature and policy decision
- Utah-headquartered with 4 dedicated local staff who understand our communities
- Parent visibility and teacher empowerment built into the platform-capabilities competitors don't offer
