

SR-36 (Main Street) and Skyline Drive

Proposed New Traffic Signal and Raised Median

Tooele City, in partnership with the Utah Department of Transportation (UDOT), is proposing a project to construct a raised median along SR-36 (Main Street) from Skyline Drive to just south of 520 South (see map below). The proposed project would also include the installation of a new traffic signal at the Skyline Drive/Main Street intersection, just north of the raised median, along with crosswalks on the north and east legs of the intersection.

These improvements are being proposed as a measure to improve safety and access management at the intersection.

We are holding a Public Hearing to discuss the proposed project and take public comments.

When: Thursday, March 5

Where: Tooele City Hall City Council Chambers (90 North Main Street, #119)

Time: 6:00 p.m. to 7:30 p.m.

UDOT has completed a Draft State Environmental Study that will be available at the hearing for review.

NOTICE OF SPECIAL ACCOMMODATION DURING PUBLIC MEETINGS: Any individual needing special accommodations (including interpreters, translators, and auxiliary communicative aids and services) during this meeting should contact the project team by Monday, March 2, at 877-495-4240 to ensure availability.

If you are unable to attend, written comments may be submitted by email to udotregion2@utah.gov, or by mail to Consor PI, 38 E Scenic Pointe Drive Ste 300, Draper, UT 84020. **Comments will be accepted through March 20, 2026.**

If you have any questions regarding this hearing, please reach out to our project team using the contact information below.
