RESOLUTION 2026-14

A RESOLUTION OF THE TOOELE CITY COUNCIL AUTHORIZING PAYMENT OF A FEE IN LIEU OF WATER RIGHTS CONVEYANCE FOR THE TOOELE FLEX SPACES DEVELOPMENT AT 1121 WEST UTAH AVENUE.

WHEREAS, Tooele City Code Chapter 7-26 governs the exaction by Tooele City of water rights as a condition of land use approval (see also UCA 10-20-911); and,

WHEREAS, TCC Section 7-26-3(2) empowers the City Council to adopt a legislative policy allowing for the payment of a fee in lieu of water rights conveyance: "Fee-in-lieu. Pursuant to established City Council policy, in lieu of actual conveyance of water rights pursuant to this Chapter, certain development applicants may pay to the City an amount per acre-foot for access to water rights controlled by the City in a quantity necessary to satisfy the anticipated future water needs of the proposed development to be served and supplied by the City water system"; and,

WHEREAS, on November 1, 2023, the City Council approved Resolution 2023-92, adopting an updated fee-in-lieu of water rights conveyance policy referred to in TCC 7-26-3(2), with an effective date of November 1, 2023 (with the original policy being adopted in 2007) (see the November 1 policy attached as Exhibit B); and,

WHEREAS, the November 1 policy encourages the consideration of at least the following factors in considering requests to pay the fee-in-lieu:

- The number of jobs the development is anticipated to create, together with the nature of the jobs (e.g., full-time) and job compensation (e.g., wage levels, benefits).
- The amount of sales tax the Project is anticipated to generate.
- The amount of property tax the Project is anticipated to generate.
- The anticipated environmental and social benefits and impacts of the Project.
- The number of acre-feet requested against the number of water credits available, given the annual limit and the availability of water rights as described in the November 1 policy.

WHEREAS, the City Council retains sole and exclusive legislative discretion in deciding to allow the payment of the fee-in-lieu; and,

WHEREAS, Tooele City received from Seth Stapel (developer/owner of Tooele Flex Spaces) a letter dated February 24, 2026, requesting the allocation of 1.5 acre-feet of City-owned municipal water rights for development of the Tooele Flex Spaces

Development at 1121 West Utah Avenue (“the Project”), or, in other words, requesting to pay the fee-in-lieu rather than convey water rights for the Project (see the letter attached as Exhibit A); and,

WHEREAS, the Project will consist of a 2.81-acre development of new commercial construction, featuring 49 flex industrial units designed to serve small businesses, contractors, and light industrial users within the Tooele community; and,

WHEREAS, the Project proposal addresses the policy considerations identified above and in the November 1 policy in the following ways:

- The Project requests 1.5 acre-feet of water.
- An estimated capital investment of \$5,012,500.
- The creation of an estimated 123 jobs across a wide range of small business sectors, including general contractors and subcontractors, construction trades, local fulfillment and logistics operators, small manufacturing and service businesses.
- The generation of new and ongoing annual property tax revenue.

NOW, THEREFORE, BE IT RESOLVED BY THE TOOELE CITY COUNCIL that, in light of the legislative policies and considerations discussed above, the City Council hereby authorizes the payment of the fee-in-lieu of water rights for the Project, for up to 1.5 acre-feet of municipal water rights, for the fee amount established in the November 1 policy of \$35,000 per acre-foot, subject to the terms and conditions outlined in the November 1 policy.

This Resolution is necessary for the immediate preservation of the peace, health, safety, or welfare of Tooele City and shall become effective upon passage, without further publication, by authority of the Tooele City Charter.

IN WITNESS WHEREOF, this Resolution is passed by the Tooele City Council this ____ day of _____, 2026.

Letter Requesting Fee in Lieu

February 24, 2026

Tooele City
Attn: John Perez, MPA
Economic Development Director
90 North Main Street
Tooele, UT 84074

Subject: Request for 1.5 Acre-Feet of Water Rights – Tooele Flex Spaces Development

Dear Mr. Perez,

I am writing to formally request 1.5 acre-feet of water rights through payment in lieu for a proposed flex space development located at **1121 W Utah Ave, Tooele, Utah 84074**. As advised by City Engineer Paul Hansen, I understand that this request will need to go before the city council for approval.

The project, titled **Tooele Flex Spaces**, will consist of a 2.81-acre development featuring **49 flex industrial units** designed to serve small businesses, contractors, and light industrial users within the Tooele community.

This development is expected to provide meaningful economic benefits to the city, including job creation, private capital investment, and long-term expansion of the local business base. Key anticipated impacts include:

Project Overview & Economic Impact

Total Capital Investment: Approximately \$5,012,500

Property Tax Impact: Once completed and stabilized, the development is expected to generate substantial ongoing annual property tax revenue for Tooele City, Tooele County, and local taxing entities. Because flex industrial properties typically maintain high occupancy and long-term tenancy, this project will provide a stable and durable source of municipal revenue for decades.

Job Creation: The development is projected to support approximately 123 jobs across a wide range of small business sectors, including:

- General contractors and subcontractors
- Construction trades such as carpentry, electrical, and plumbing
- Local fulfillment and logistics operators
- Automotive and equipment service providers
- Small manufacturing and service businesses

Support for Small Business Growth

Unlike large single-user industrial buildings, this project is designed specifically to serve local entrepreneurs and small businesses that often struggle to find affordable, appropriately sized industrial space.

By providing flexible unit sizes, modern infrastructure, and ownership/lease opportunities, Tooele Flex Spaces will:

- Enable local businesses to expand operations within Tooele rather than relocating to the Wasatch Front
- Encourage new business formation and entrepreneurship
- Provide space for service-based industries essential to community growth
- Strengthen the City's local employment base.

We appreciate the City's consideration of this request and look forward to working collaboratively to bring this development to fruition. Please let me know if any additional information, documentation, or formal applications are needed to proceed with review and City Council consideration.

Thank you for your time and support.

Sincerely,

Seth Stapel

November 1, 2023, Fee-in-lieu Policy

City Council Policy

RE: Payment of a Fee In Lieu Of Water Rights Conveyance under Tooele City Code §7-26-3(2).

Effective Date: November 1, 2023

Tooele City Code Chapter 7-26 requires the conveyance of water rights as a condition of approval of all land use applications. Section 7-26-3(2) states the following:

Fee-in-lieu. Pursuant to established City Council policy, in lieu of actual conveyance of water rights pursuant to this Chapter, certain development applicants may pay to the City an amount per acre-foot for access to water rights controlled by the City in a quantity necessary to satisfy the anticipated future water needs of the proposed development to be served and supplied by the City water system.

This City Council Policy is established pursuant to the legislative authority embodied in §7-26-3(2).

Residential Development. Beginning on the Effective Date, Tooele City will allow the owner(s) of an existing single-family parcel of record that, as of the Effective Date, is not part of a recorded subdivision, and the owner(s) of a single-family lot that is part of a recorded subdivision, either of which parcel or lot is subdivided through a two-lot subdivision (e.g., a lot split), to pay a fee (the "Fee") for the new lot in lieu of the residential water right requirement established in TCC §7-26-2(1). The administrative departments are authorized to determine eligibility and to approve payment of the Fee for such a two-lot residential subdivision. The item for which the Fee is paid shall be known for purposes of this Policy as a Water Rights Credit or Credit.

Persons who are eligible under this Policy may purchase Credits by paying the Fee. Credits will be purchased on a first-come first-served basis. The Fee shall be paid in full prior to building permit issuance. Should a building permit for which the Fee was paid expire under the terms of the permit, the City will refund the Fee, minus a \$100 administrative service charge. A person who previously paid the Fee and received a Fee refund due to an expired building permit may submit a new building permit application and may again request to pay the Fee on a first-come first-served basis behind others who paid the Fee and whose building permits remain valid.

Non-residential Development. Beginning on the Effective Date, Tooele City will allow owners of a non-residential development project ("Project") to request to pay the Fee if the Project is determined by the City to need less than 20 acre-feet of municipal water rights. Additional Credits may be made available, upon recommendation of the Public Works Director and Economic Development Director, and with written approval of the Mayor. A Request shall be in

writing from the property owner or agent and addressed to the City Council or Mayor. Approval of a request may be granted only after full consideration of the following criteria in relation to the amount of water used for the Project:

- The number of jobs the Project is anticipated to create, together with the nature of the jobs (e.g., full-time) and job compensation (e.g., wage levels, benefits).
- The amount of sales tax the Project is anticipated to generate.
- The amount of property tax the Project is anticipated to generate.
- The anticipated environmental and social benefits and impacts of the Project.

The Council may consider additional criteria as it thinks appropriate. Persons who are eligible under this Policy and approved by the City Council may purchase Credits by paying the Fee. Credits will be purchased on a first-come first-served basis. The Fee shall be paid in full prior to building permit issuance. Should a building permit for which the Fee was paid expire under the terms of the permit, the City will refund the Fee, minus a \$100 administrative service charge. A person who previously paid the Fee and received a Fee refund due to an expired building permit, or due to the approval sunset, may submit a new building permit application and may again request to pay the Fee. If authorized by the City Council, the Credits may be purchased on a first-come first-served basis behind others who paid the Fee and whose building permits remain valid. The City Council may partially approve a request, for example, by authorizing 10 Credits out of 20 Credits requested.

Sunset for Non-residential Projects.

The City Council's authorization to pay the Fee for one or more buildings in a non-residential development Project containing more than one primary structure (e.g., more than one restaurant or store) is conditioned upon the Project obtaining City approval of a building permit for a first primary structure in the Project, and commencing vertical construction of the permitted structure, within two years of the date of approval of the Resolution authorizing payment of the Fee. Thereafter, the Project shall obtain a building permit for at least one additional primary structure, and commence vertical construction, within each successive twelve months following the commencement of construction of the prior building. By way of example, if a Resolution is approved on January 1, 2024, a first building permit must be obtained, and vertical construction commenced, prior to December 31, 2025; the next building must be permitted and construction commenced prior to December 31, 2026; and so on. Should any of these events not occur before the applicable sunset date, the City Council approval shall lapse and the remaining Credits shall revert to the City. The City Council, in its sole discretion, may extend these sunset deadlines or modify these conditions in a public meeting.

General.

1. **Fee Cost.** The Fee shall be established at \$35,000 per 1.0 acre-foot of depletion of municipal water rights. This Fee amount is not intended or calculated to reflect market value. The Fee applicable to any Request shall be the Fee in effect on the date of the Request, provided the

building permit application for which the Fee is paid is filed with the City within one year of the Request, and otherwise shall be the Fee in effect on the date of the building permit application.

2. Annual Limit. The number of Credits purchased pursuant to this Policy shall not exceed a total of 50 in any calendar year or in any period of 12 consecutive months without the approval of the City Council, in its discretion.
3. Acceptance of Credits. Upon payment of the Fee, the City will indicate the payment on the approved building permit. Payment of the Fee to the City constitutes surrender of the Credits to the City. No Credit certificate is required.
4. Integration. This Policy shall supersede any prior oral or written policies, practices, and understandings on the subject of this Policy.
5. Use of Revenues. Revenues derived from payment of the Fee shall be utilized for the protection of existing water rights and/or the acquisition of additional water rights, except that the City Council may authorize the use of the revenues for other Tooele City water-related projects and needs upon a finding of good cause. The water rights revenue fund is a fund in the City's General Fund and is not an enterprise fund.
6. Limited Availability. The payment of the Fee under this Policy is subject to the availability of corresponding water rights, in the sole discretion of Tooele City.
7. Resolution Required. The City Council's authorization to pay the Fee for a non-residential Project shall be pursuant to approved City Council Resolution.
8. No Entitlement or Security. Approval of a Resolution for a Project containing multiple lots or buildings (e.g., subdivision, site plan) shall be a temporary reservation of Credits for the Project's building permit applicants. Approval of a Resolution shall not constitute a vested development right or a land use entitlement, or the creation of a marketable security. The City will accept the Fee only from building owners, the authorized agents of building owners, or building permit applicants for buildings in a Project.
9. No Assignment or Transfer. Credits shall not be assignable or transferrable but are reserved by the City in the City's sole discretion for specific Projects and sold for specific buildings.
10. No Pre-payment. Project owners may not pre-purchase Credits for their Project or any Project building in advance of building permit application.
11. No Precedent. City Council authorization to pay the Fee for one Project, at whatever Fee amount per Credit, shall not be considered a precedent in any way in reference to any other Project.
12. Refunds. If water usage projection for a building are reduced by the City after payment of the Fee for that building, the City will reimburse the difference between the Fee paid and the Fee that would have been paid under the reduced usage projection. If a Fee payor withdraws a building permit application prior to its approval, the City will reimburse the Fee, with a \$100 administrative charge.

Five Hundred dollars and 00 cents (\$ 500.00) for each day or part thereof of any utility interruption caused by the CONTRACTOR without the ENGINEER's prior written authorization.

C. **Survey Monuments:** No land survey monument shall be disturbed or moved until ENGINEER has been properly notified and the ENGINEER's surveyor has referenced the survey monument for resetting. The parties agree that upon such an unauthorized disturbance it is difficult to determine the damages from such a disturbance, and the parties agree that CONTRACTOR will pay as liquidated damages the sum of (\$500.00) to cover such damage and expense.

- D. **Deduct Damages from Moneys Owed CONTRACTOR:** OWNER shall be entitled to deduct and retain liquidated damages out of any money which may be due or become due the CONTRACTOR. 3. Mayor's Report

Mayor Manzione expressed appreciation for recent snowfall and noted that additional snow is expected, which will be beneficial moving into the summer months.

Mayor Manzione provided a brief legislative update, she reported that there are over 900 bills currently active and approximately 12 days remaining in the legislative session. Council members were encouraged to follow League meetings, which are recorded and available online. Mayor Manzione also reported attending a Shelter Cities Board meeting focused on homelessness-related legislation. Discussions included proposed legislation aimed at consolidating homeless-related bills and ongoing efforts to revise the homeless mitigation funding formula to more equitably support cities with homeless shelters, particularly those not currently receiving mitigation funds.

Mayor Manzione recognized the swearing-in of five new police officers in recent weeks. Weather-related impacts were also reported, including downed power lines, fallen trees, fence damage, wind-related damage at the golf course, and several fires. The Mayor extended sincere thanks to Public Works, Police, and Fire departments for their continued efforts and responsiveness during a particularly demanding period.

4. Council Members' Report

Councilman McCall reported limited activity since the last meeting. He attended a ribbon cutting ceremony at Tropical Smoothie Cafe earlier in the month. He also expressed appreciation for the opportunity to take vacation time and noted his absence from the previous two meetings.

Councilman Hansen reported limited city-related activity over the past two weeks due to work-related travel. He noted positive conditions from recent snowfall and expressed optimism that the snowpack will continue to improve.

Councilwoman Gochis reported she also attended the ribbon cutting for Tropical Smoothie Cafe. She also participated in an RDA Executive Meeting on February 5 and an RDA Meeting on February 12. She attended the retirement luncheon for Jamie Grandpre and expressed appreciation for his service, wishing him and his wife well in their next chapter. On February 17, she attended the legislative session at the State Capitol with Representative Peck and noted her appreciation for the building and its use of Utah-sourced materials. She also attended an LPC meeting via Zoom and participated in the City's budget kickoff meeting. She thanked the Mayor, Shannon Wimmer, and Kami for their presentations and noted that the meeting provided a strong foundation for understanding this year's budget needs.

Councilman Gossett reported attending the City's budget kickoff meeting. He also participated in an Arts Council meeting, where updates were provided on progress at the Ritz Theater, including completion of the ceiling, upcoming events beginning this week, and finalization of the Fridays on Vine lineup. He attended a Children's Justice Center meeting and noted the significant impact the organization had over the past year based on reported service numbers. Additionally, he completed Open and Public Meetings Act training and Introductory Training for Municipal Officials.

Councilman Brady reported attending the City's budget kickoff meeting and noted that it included a productive discussion. He expressed confidence in the City's strong financial position and acknowledged the work done over the years to maintain it. He also reported ongoing participation in weekly staff meetings and thanked City staff for their continued efforts, emphasizing that much of their important work occurs behind the scenes.

5. **Discussion Items**

- a. **A Discussion on Resolution 2026-08** A Resolution of the Tooele City Council Waiving Development Impact Fees for the Tooele County Housing Authority's Harvey Subdivision

Presented by Matthew Johnson, City Attorney

Mr. Johnson advised that during tonight's work meeting, and again at the upcoming business meeting, the City Council will consider a request from the Tooele County Housing Authority to waive a portion of the impact fees associated with the proposed Harvey Subdivision, which includes six dwelling units.

Total impact fees are approximately \$16,000 per unit. Under City Code Section 4-15-5, the Council may waive up to \$10,000 per unit. Approval of the waiver would require the waived portion to be covered through another City funding source and would reduce financial barriers for the Housing Authority in delivering affordable homeownership opportunities.

Karen Kuipers, Executive Director for Tooele County Housing Authority presented information on its Mutual Self-Help Housing Program, a USDA Rural Development-supported home ownership program that enables low-and very-low-income households to build their own homes through sweat equity. Participants contribute a minimum of 30 hours per week over approximately nine months, allowing them to qualify for low-interest mortgages and achieve homeownership. The program recently completed 21 homes in the Murdoch Subdivision, and six applicants have applied for homes in the Harvey Subdivision located at 600 North 200 West.

Ms. Kuipers advised that Council previously approved a similar impact fee waiver for the Murdock Subdivision, which was critical in allowing very-low-income families to qualify. Without the waiver, some applicants—particularly those at or below 50% of Area Median Income—would be unable to participate.

Ms. Kuipers shared profiles of program participants, including teachers, law enforcement officers, healthcare workers, tradespeople, and veterans, highlighting the program's community impact. Estimated mortgage payments range from approximately \$950 to \$1,500 per month, depending on income and subsidy levels.

Mayor Manzione reminded Council that any waived impact fees would still need to be paid by the City, likely from fund balance.

- b. **A Discussion on J-U-B Water Rights Planning Study**

Presented by Jamie Grandpre, former Public Works Director, and Nathan Farrer, Public Works Director

Mr. Grandpre, Mr. Farrer, and J-U-B representative Andrew Hobbs presented results of a Water Rights Planning Study initiated approximately one year ago to evaluate the City's long-term water sustainability in the context of population growth, climate variability, and regulatory constraints. The study was conducted in coordination with the City's Water Master Plan, Water Reuse Plan, and 40-Year Water Rights Plan, and is intended to provide a strategic roadmap for future water policy decisions.

The City currently holds approximately 19,205 acre-feet of water rights on paper; however, after accounting for engineering adjustments, conversion of irrigation rights to municipal use, and a 10 percent drought safety factor, the City's reliable usable water supply is estimated at approximately 12,365 acre-feet. Based on a projected annual growth rate of two percent, water demand is expected to reach approximately 16,576 acre-feet by the year 2060, resulting in a projected long-term deficit of roughly 4,200 acre-feet if no action is taken.

Because the Tooele Valley is a closed basin, the City cannot obtain new water rights and must instead acquire rights from existing holders. As a result, the study recommends maintaining or strengthening the current developer exaction policy requiring new development to provide water rights, rather than allowing fee-in-lieu payments, which could shift the long-term burden of water acquisition to existing ratepayers.

The study emphasizes the importance of protecting existing water rights from forfeiture, managing groundwater use to avoid net increases despite population growth, and preserving access to key water rights. It also highlights the need to expand water reuse from the Water Reclamation Facility for secondary irrigation purposes, continue strategic well development near growth areas to minimize infrastructure costs, and implement conservation measures targeting a 15 to 20 percent reduction in demand, particularly among high-volume water users.

A phased implementation plan extending through 2060 was presented, beginning with near-term actions such as completing the Rogers Road well, initiating additional test wells, expanding reuse infrastructure, refining developer water policies, and enhancing aquifer monitoring. The planning framework includes a built-in drought buffer to maintain service reliability during dry years. Council discussion focused on aquifer capacity, well drilling strategy, reuse feasibility, conservation goals, and the importance of maintaining local control over water policy. Staff emphasized that proactive planning is essential to ensure the City can continue to meet water demands for both current and future residents.

3. **America 250 Tribute**

Reading of the Declaration of Independence Presented by Chase Randall, Library Director

Mr. Randall volunteered to read the Declaration of Independence. In doing so, he noted that while much of the Council's work focuses on the technical details and day-to-day mechanics of governance—such as water rights, development, and policy—it is important to periodically reflect on the underlying purpose of that work. He observed that while the Constitution, along with the state constitution and city charter, defines the “how” of government, the Declaration of Independence clearly articulates the “why,” serving as a reminder of the principles and values that guide public service.

4. **State Funded Grant for Court Victim Advocates**

Presented by Velynn Matson, Tooele Victim Advocate

Ms. Matson, Court Victim Advocate with the Tooele City Police Department, provided a biannual update as required by state grant funding. She reported that beginning with the current grant cycle in July, her approved hours were increased, allowing the program to expand services. As a result, the Victim Advocate program assisted 426 crime victims, compared to 302 victims served during the previous eight-month period.

Ms. Matson noted that the additional hours have improved consistency in outreach and support for victims and their families. She highlighted a significant case involving a DUI-related homicide that occurred on September 26, 2025, at Main Street and 2400 North. The defendant has since entered a guilty plea and was sentenced to one to twenty years in the Utah State Prison. Victim services were provided to the surviving family, including support during court proceedings and victim impact statements. She also reported that victim services are currently being provided to the family affected by the recent incident at Main Street and 1000 North. Ms. Matson expressed appreciation for the City's continued support of victim services. Council members thanked her for her work and commitment to the community.

5. **Public Comment Period**

Chairman Brady reported that the city received one public comment via email on Tuesday, February 17, at 10:39 a.m. The email expressed concerns regarding the installation of cameras throughout the City and requested information on who approved and installed the cameras, as well as the associated cost to taxpayers. The comment was submitted by Shyanna Jorgensen of Tooele.

Chairman Brady opened the public hearing at 7:19 p.m. Seeing no members of the public coming forward, Chairman Brady closed the public hearing at 7:19 p.m.

6. **Public Hearing and Motion on Ordinance 2026-02 An Ordinance of the Tooele City Council Vacating a Municipal Utility Easement Near 2400 North Main Street (The Peak at Compass Point Subdivision) and Accepting a Replacement Municipal Utility Easement for Identical Utility Service to the Same Area**

Presented by Paul Hansen, City Engineer

Mr. Hansen advised this resolution addresses a utility easement within the Peak at Compass Point development, located at the northwest corner of 2400 North and SR-36. The City has a water line running through the development that connects back into the municipal system, making it public infrastructure that must be protected from cross-contamination and potential damage. While an easement was originally

created and shown on the subdivision plat, minor adjustments were made during construction to account for field conditions. This action vacates the original easement and replaces it with a new easement that accurately reflects the utilities as they were constructed. The revised easement does not change the size or scope of the easement; it simply corrects its location to match existing infrastructure.

Chairman Brady opened the public hearing at 7:21 p.m. Seeing no members of the public coming forward, Chairman Brady closed the public hearing at 7:21 p.m.

Motion: Council Member Hansen moved to approve Ordinance 2026-02 An Ordinance of the Tooele City Council Vacating a Municipal Utility Easement Near 2400 North Main Street (The Peak at Compass Point Subdivision) and Accepting a Replacement Municipal Utility Easement for Identical Utility Service to the Same Area. Councilman McCall seconded the motion. The vote was as follows: Councilman McCall, “Aye”; Council Hansen, “Aye”; Councilwoman Gochis, “Aye”; Councilman Gossett, “Aye”; and Chairman Brady, “Aye”. The motion passed 5-0.

7. **Ordinance 2026-03 An Ordinance of the Tooele City Council Amending Tooele City Code Chapter 1-26, Clarifying Application of Fee Changes to New and Pending Submissions, and Updating Reference to Utah Code**

Presented by Shannon Wimmer, Finance Director

Ms. Wimmer advised that this ordinance updates City Code 1-26, Sections 1 and 2, to clarify when newly adopted fees take effect. Under the revised language, any fee change approved by the City Council will apply to all new and pending applications or submissions for which the fee has not yet been paid in full, unless the fee is otherwise vested by law or governed by a written agreement with the City. In general, fees will take effect immediately upon adoption unless a different effective date is specified in the adopting resolution. This recognizes existing exceptions, such as impact fees, which are subject to a statutory 90-day waiting period. The clarification is intended to ensure consistency in internal procedures and fee implementation.

Motion: Councilwoman Gochis moves to approve Ordinance 2026-03 An Ordinance of the Tooele City Council Amending Tooele City Code Chapter 1-26, Clarifying Application of Fee Changes to New and Pending Submissions, and Updating Reference to Utah Code. Councilman Gossett seconded the motion. The vote was as follows: Councilman Gossett, “Aye”; Councilwoman Gochis, “Aye”; Councilman Hansen, “Aye”; Councilman McCall, “Aye”; and Chairman Brady, “Aye”. The motion passed 5-0.

8. **Resolution 2026-06 A Resolution of the Tooele City Council Amending the Legislative Policy Regarding Public Comments in Public Meetings, Applicable to the Public Comment Period and Public Hearings**

Presented by Matthew Johnson, City Attorney

Mr. Johnson advised that this resolution amends the City’s public comment policy to clarify how written public comments are handled. The update addresses uncertainty regarding which portions of the existing policy—originally focused on verbal, in-person comments—apply to comments submitted in writing. Additional clarifications distinguish between public hearings and the general public comment period. Revisions discussed at the prior work meeting are reflected in the red- and blue-lined version, with red indicating the original proposed changes and blue indicating revisions made since that meeting. A key change extends the deadline for written comments from 5:00 p.m. to 11:59 p.m. the day prior to the

meeting, providing clearer guidance to both staff and the public. Minor edits were also made to improve clarity and avoid impractical requirements. The overall purpose of the resolution is to ensure consistency, transparency, and clear procedures for receiving written public comments.

Motion: Councilman McCall moves to approve Resolution 2026-06 A Resolution of the Tooele City Council Amending the Legislative Policy Regarding Public Comments in Public Meetings, Applicable to the Public Comment Period and Public Hearings. Councilman Hansen seconded the motion. The vote was as follows: Councilman McCall, "Aye"; Councilman Hansen, "Aye"; Councilwoman Gochis, "Aye"; Councilman Gossett, "Aye"; and Chairman Brady, "Aye". The motion passed 5-0.

9. **Resolution 2026-08 A Resolution of the Tooele City Council Waiving Development Impact Fees for the Tooele County Housing Authority's Harvey Subdivision**

Presented by Matthew Johnson, City Attorney

Mr. Johnson advised this resolution considers a request from the Tooele County Housing Authority for a waiver of impact fees associated with the construction of six dwelling units. The City Council has the discretionary authority to waive up to \$10,000 per dwelling unit for this type of housing, for a potential total waiver of \$60,000. Any approved waiver would be funded from the City's fund balance. Consistent with prior resolutions, the specific dollar amount is left blank in the resolution and would be stated in the motion if approved. The matter was discussed earlier in the work meeting, with councilmembers expressing support for approving the maximum waiver amount per unit due to the positive impact on housing affordability.

Motion: Councilman Gossett moved to approve Resolution 2026-08 A Resolution of the Tooele City Council Waiving Development Impact Fees for the Tooele County Housing Authority's Harvey Subdivision for \$10,000 each dwelling unit for a total of \$60,000. Councilwoman Gochis seconded the motion. The vote was as follows Councilman Gossett, "Aye"; Councilwoman Gochis, "Aye"; Councilman Hansen, "Aye"; Councilman McCall, "Aye"; and Chairman Brady, "Aye". The motion passed 5-0.

10. **Resolution 2026-07 A Resolution of the Tooele City Council Approving an Agreement with Aarrow Landscape Construction, LLC, for the 2026 Tooele Valley Museum Sidewalk Project**

Presented by Darwin Cook, Parks & Recreation Director

Mr. Cook provided an update on recent improvements to the Tooele Valley Museum and Historical Park property, including multiple sidewalk upgrades and enhanced public access. A key improvement for the upcoming season is the inclusion of the Foreman's House as part of the museum exhibit, now fully accessible to the public with the addition of an ADA-compliant ramp. Mr. Cook emphasized the museum's growing value as a community asset and its role in preserving and sharing local history. The resolution presented proposes entering into a contract with Aarrow Landscape Construction LLC, to

construct a new six-foot-wide sidewalk along the south side of the museum property where an existing sidewalk easement exists but no sidewalk is currently built. The area is heavily used by pedestrians, including students, and the new sidewalk would replace an informal dirt path. The project also includes repairing deteriorated sidewalk sections between First Street and Pinehurst, adding an ADA-compliant crossing, and removing obsolete driveway approaches from the site's former use as a depot. The project was competitively bid, with twelve bidders responding. Aarrow Landscape Construction, LLC, was

selected as the low bidder with a total cost of \$73,591.25. Of that amount, \$65,497.50 will be funded through the Capital Projects Fund for the museum portion, and \$8,093.75 will come from the General Sidewalk Fund for the First Street to Pinehurst segment. The contractor has a proven track record with prior city sidewalk and parking lot projects. Councilmembers expressed support for the project, noting improvements to safety, accessibility, and the overall appearance of the property.

Motion: Councilwoman Gochis moved to approve Resolution 2026-07 A Resolution of the Tooele City Council Approving an Agreement with Aarrow Landscape Construction, LLC, for the 2026 Tooele Valley Museum Sidewalk Project. Councilman McCall seconded the motion. The vote was as follows: Councilman McCall, "Aye"; Councilman Hansen, "Aye", Councilwoman Gochis, "Aye", Councilman Gossett, "Aye"; and Chairman Brady, "Aye". The motion passed 5-0.
