

Bus Package

Chevrolet Express (G-Series) mini school bus / activity bus, commonly called a "**short bus**" or **mid bus**.

- **Chassis:** Chevrolet Express 3500 or 4500 cutaway
- **Body:** Likely built by **Mid Bus** (you can see "MID BUS" labeled on the roof hatch)
- **Use:** Previously used as a **childcare/daycare transport bus** for the **Bennion Learning Center** in Taylorsville, Utah

Key details from the photos:

- **Odometer:** ~27,182 miles
 - **Transmission:** Showing **2ND gear / RND** on the display
 - **Fuel:** About **1/4 tank**
 - **Engine temp:** Normal range (~210°F)
 - **Seating:** Appears to hold around **14–20 passengers**
 - **Utah license plate:** X64 2SW
-

Estimated Value: \$12,000 – \$18,000

Key factors influencing this estimate:

Positives that increase value:

- **Very low mileage** — only ~27,182 miles, which is exceptionally low for a bus
- Chevy Express chassis is reliable and well-regarded
- Appears to be in reasonable cosmetic condition

Factors that may reduce value:

- Older model year (likely mid-2000s to early 2010s based on styling)
 - Former daycare/school use (commercial history)
 - Some visible rust and wear on the lower body panels
 - Branding/decals on the exterior would need to be removed
-

Similar Chevrolet Express school/shuttle buses have sold at auction for \$11,550–\$20,350, depending on year and condition. [Purplewave](#)

The **low mileage is the biggest value driver** here — most comparable buses sell with 60,000–170,000+ miles. At only ~27K miles, this bus could command a premium, likely landing in the **\$15,000–\$18,000 range** if sold privately in good running condition, or **\$10,000–\$13,000** at auction.
