

## Radiology Practical Technician Scope of Practice

1. Can a RPT conduct PELVIS scans?
  - a. If so, what module/specialty does it fall under? **yes**
2. Can a RPT conduct RIB scans?
  - a. Do rib scans fall within chest scans? **yes**
  - b. Do rib scans fall within spine scans?
  - c. Does a RPT need both chest and spine module/specialties to conduct rib scans?
3. Can a RPT conduct HIP scans?
  - a. If so, what module/specialty does it fall under? **yes**
4. If RPT can conduct HIB and PELVIS scans, can we infer they can conduct BONE LENGTH scans (Pelvis to ankle)? **Further discussion needed**
5. Can a RPT conduct STERNUM and SC JOINT scans?
  - a. Does scans fall within chest scans? **yes**
6. Can a RPT conduct SOFT TISSUE NECK examinations?
  - a. Do exams fall within chest scans?
  - b. Do exams fall within spine scans? **yes**
  - c. Does a RPT need both chest and spine module/specialties to conduct scans.
7. Will ABDOMEN continue to be excluded from RPT scope or are there plans to change that? **Plans for change: Include abdomen**
8. Does the PODIATRIC modality allow for all foot exams or just specialty views? **All exams**
9. Are common foot exams covered under EXTREMITIES modality? **yes**
  - a. Antero-Posterior
  - b. Oblique
  - c. Lateral View
