Preparing students for life

Dear Washington County School Board:

We would like to amend some of our TSSA funding allocation to include \$6000 to improve the school marquee which has fallen into disrepair. We would utilize this funding from our technology account and reallocate under the equipment account.

We feel improving this marquee would fall under Focus area 2 in our spend plan goals to "Increasing students social, emotional well being at HHS as well as their involvement." Its paramount that students have a high level of self respect, pride and belief in their school and improving the decaying signage on the marquee would help in this aspect.

Respectfully,

Daniel McKeehan
Principal, Hurricane High School
