Home Food Production Grants

The purpose of the SLC Food Microgrant Program is to build an inclusive community around healthy food choices where individuals living in Salt Lake City have many opportunities to shape, participate in, and enjoy a sustainable, accessible, and resilient local food environment.

Home Food Production Grants are intended to support individual residents, families, and neighbors in growing or raising their own food. Grants provide \$250 to Salt Lake City residents to help buy supplies or access education opportunities for starting, continuing, or expanding a food garden or other home food production project such as backyard chickens, composting, fruit tree maintenance, or beekeeping.

Please review each assigned application for the Home Food Production Microgrant and give an overall assessment of whether or not you would recommend the applicant receive funding. Review and assess the application based on its content and how well it aligns with the purpose of the grant program, not on its writing quality or answer length. Note any concerns or questions you have about the application that may impact your recommendation to fund the project.

3. Application ID *

4. **Overall Recommendation to Fund**

*

How well does this applicant align with the goals of the grant program? Would you recommend this project be funded?

5. **Notes/Questions/Concerns**

Use this space to indicate any notes, questions, or concerns you have about the application that might affect your recommendation to fund them.

Community Grants

The purpose of the SLC Food Microgrant Program is to build an inclusive community around healthy food choices where individuals living in Salt Lake City have many opportunities to shape, participate in, and enjoy a sustainable, accessible, and resilient local food environment.

Community Grants are intended to support local community groups, organizations, and small businesses in improving food access in Salt Lake City. Grants provide up to \$5,000 to Salt Lake City-based organizations to help buy equipment and supplies, access educational opportunities, or support professional services or personnel compensation directly related to the proposed project.

Please review each application for the Community Grant and give a score for each of the below categories. Review and score based on the content of the application, the impact the project will have toward food access, and how well the proposal aligns with the purpose of the grant program, not on its writing quality. Questions related to the content, impact, and goal alignment with the microgrant program of the proposed project will be weighted more in the application's final score.

6. Organization Name *

 Dropdown

Mark only one oval.

Option 1

7. **Organization Mission**

*

Please describe your organization and its mission. Include a brief description of your organization's history including why it was founded, the key issues it addresses, your current work, and any major accomplishments.
