

Kyla Topham  
Council Department Report  
March 2026

URC- Attended design committee meetings to refine details about the program. We discussed how, when, or if we can let other communities join. Also, how to collect a financial backstop that satisfies RMP. SLC is looking into options to solve this potential issue.

CHC- will schedule our next meeting later in the quarter.

Community Development- Tom is looking into the details about what it takes to become a fire wise community which was brought up at the WUI meeting. Kyndal is heading up the invasive species project now, and we will need to sign a new agreement with service dates for 2026. There will be more information on this once it has been review by all of the parties then it will come to council.

Messaging- We met a few times recently. We've worked on Local's Week in conjunction with the birthday. Thanks to Robin, Kyndal, and April for all of their leg work on getting that project up and running. We finalize the Messaging Initiative presentation and we presented that plus the survey on Thursday the 19. The town is participating in the USU Wellbeing Survey again. You should have received an email with the link.

Housing- We met to ask a few additional questions to our bidder for the housing project on Trapper Circle. The bidder was very responsive and had good clarifying information. I missed the second housing meeting due to a scheduling conflict.

I attended the training for the Open and Public Meetings Act.

I attended the WUI information night.

Jennifer, Kyndal, and I presented the Messaging Initiative. Please take the survey if you have not already.
