

Council Department Report 3-11-26

Fire Board

- The town of Springdale and the fire board held a very well attended workshop on the WUI code last month. Next month there will be a presentation on Firewise Communities. The date is 4/7/26 at the CCC.
- There has not been a fire board meeting yet this month because we have been waiting for the WA county commissioners to name the new board members. They finally did that in their meeting on Monday, 3/2. We are in the process of finding a date that will work for the board members so that we can have a meeting sometime in March.

Community Renewable Energy Agency

- The PSC has still not approved the application we and RMP submitted to them for our program. We are now hoping to have the approval by the end of March.
- Once the PSC approves the program, we will have 90 days to pass an ordinance that allows us to be part of the program.
- A transmission study by RMP for the four projects URC selected in their short list has now started. This will allow us to see the cost and time required to tie each of these projects into the grid.
