

SAMPLE ONLY

This document is provided as a sample. Please update the weekly titles to align with your approved curriculum syllabus. For each week, complete the table by listing the topic, the instructional format (lecture, demonstration, practical, or clinic floor), and the number of hours dedicated to each topic. At the end of the document, include the total number of lecture and demonstration hours, as well as the total number of hands-on and clinic floor hours.

School Program Outline
