#### **BACKGROUND**

Fresenius Medical Care Ogden Facility (Facility) formulates, packages, and manufactures products used in different applications for the treatment of renal disease (kidney failure). One product is dialysate solution and is used in the treatment of peritoneal dialysis. The other product is a dialyzer (special filter), used in hemodialysis treatment. Both products and treatments replace the work of kidneys. The Facility was remodeled in 2006 to its current standards. The Facility has a Standard Industrial Classification (SIC) code of 3841 for Surgical and Medical Instruments and 2834 for Pharmaceutical Preparations.

#### **PUBLIC COMMENTS**

Pursuant to Utah Admin. Code R317-8-6(6.6), any interested person may submit written comments on the draft permit documents and may request a public hearing if no hearing has already been scheduled. A request for a public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. All comments will be considered in making the final decision and shall be answered as provided in Utah Admin. Code R317-8-6(6.12).

Commenters have an affirmative obligation to raise all reasonably ascertainable issues and submit all reasonably available arguments and factual grounds supporting their position, including all supporting material. Supporting material must be included in full and may not be incorporated by reference, unless the material is already part of the administrative record.
