The Finance Committee recommends that the Utah State Board of Education adopts the 2027 State Fiscal Year budget.

Purpose of Memo:

Result of legislative action

Background:

In accordance with the Budgetary Procedures Act and the Money Management Act, the Utah State Board of Education (USBE) sets the public education budget for the upcoming state fiscal year. The budget is a compilation of the appropriations from the Utah State Legislature and may include both supplemental and newly appropriated funds to the public education base budget. The Financial Operations section meets with section directors immediately following the legislative session to review appropriations and ensure a common understanding of the section budget (both new and ongoing balance). The budget is compiled and presented to the USBE Finance Committee for their review and recommendation to the USBE to adopt the next state fiscal year budget and/or supplemental funds to the current state fiscal year budget.
