Dani,

We are okay with the pilot shuttle operation as proposed. I also reached out to Millcreek to make sure they would support it as they operate and maintain Virginia Way. Below is their response.

John Miller
to me, Mike, Fred

Thu, Dec 11, 4:34 PM (17 hours ago)

Geoff,

Millcreek has no problem with public parking on a public street. Millcreek has an agreement with the Granite School District to use the dive-in parking on the West side of the road and as such they can determine if they will allow shuttle weekend parking or signage on the West. Millcreek we will not allow signage on the East side of Virginia Way designating an area as Shuttle Service Parking, etc. Please reach out if you need any additional clarification.

Thanks,

John E Miller, PE

Hi Dani,

Thank you for including the County in this proposal. After connecting with colleagues who have been engaged with Millcreek shuttle discussions in the past, it seems the most effective path forward for the County, and this process in general, will be to work directly with the USFS to ensure all County requirements are met.

Thank you again for sharing the proposal and keeping us in the loop. Please don't hesitate to reach out again. Wishing you all a happy Thanksgiving!

Claudia Wiese
