BACKGROUND

Triple T Heat and Plating (Permittee) owns and operates the Triple T Heat and Plating Facility (Facility), an industrial plating facility. Plating operations include Type II anodizing and Type III hardcoat anodizing for aluminum, as well as aluminum chromate conversion coating. The Standard Industrial Classification (SIC) code for the Facility is 3471 (metal finishing).

The Facility is a new source as the Permittee began discharging after August 31, 1982. The Facility has been classified as a categorical industrial user (CIU) regulated by the metal finishing category. The regulatory requirements for metal finishers are found in 40 CFR 433. See Permit and Fact Sheet for more information.

PUBLIC COMMENTS

Pursuant to Utah Admin. Code R317-8-6(6.6), any interested person may submit written comments on the draft permit documents and may request a public hearing if no hearing has already been scheduled. A request for a public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. All comments will be considered in making the final decision and shall be answered as provided in Utah Admin. Code R317-8-6(6.12).

Commenters have an affirmative obligation to raise all reasonably ascertainable issues and submit all reasonably available arguments and factual grounds supporting their position, including all supporting material. Supporting material must be included in full and may not be incorporated by reference, unless the material is already part of the administrative record.
