May 12, 2026

To Springdale Town Council:

My wife and I are writing in support of the revision to Title 10-18 -5 (A) in favor of tiered landscaping requirements in Village Commercial, depending on the size of the property. Presently, tiered landscape requirements already exist for Valley Residential and Central Commercial zones. It makes a lot of sense and seems fair to us to grant this ordinance change request. It may help small commercial property owners.

Sincerely,

Mike McMahan
