Focus for the Upcoming Year:

Academic Achievement

Setting up and implementing a systematic, focused approach to identifying gaps in student learning and pairing it with trained, targeted instruction to close gaps in both literacy and math through a WIN program.

Fiscal Responsibility

Continuing WPA's current history of fiscal responsibility to have a strong pool of resources to meet students' needs.

Community and Culture

Focus on clarifying, strengthening, and creating systems to support the things that make WPA great, to enable successful replication as we prepare for a second campus.
