# Canvas by Instructure, a Utah based technology company

Breach had an impact on nearly 1 million Utah Students

- 700,000+ K-12 Students
- 200,000+ Higher Education Students
- Information included usernames, email address, course names, enrollment information, and messages.

# Data Collection on Educational Technology

*\*Survey conducted by Office of the Utah State Auditor in 2025 and distributed to all Utah school districts. Final report to be released by EBD*

# Why The Canvas Breach Matters

- When a vendor incident occurs, schools need to quickly determine:
  - What data was affected?
  - Who was impacted?
  - What obligations apply?

Vendor Incident → Data Impact Review → Compliance Follow-Up
