

NOTICE TO BOUNTIFUL CITY UTILITY CUSTOMERS

State law requires that the City provide an annual disclosure on amounts transferred from utility Enterprise Funds to the General Fund. Historically, Bountiful has budgeted for the transfer of 10% of Electric Metered Sales. These transferred funds are used each year to help cover the costs of important services like police, street maintenance and snow removal, fire and emergency medical services, parks, and similar City services. The utility transfer helps keep property taxes in Bountiful low. The transfers provide a means for reimbursement of the General Fund for services provided to non-property tax paying groups such as non-profit organizations, churches, and governmental entities. Viewed in another way, these transfers are a “dividend” to Bountiful taxpayers as the result of the taxpayers’ original investment in the City’s power infrastructure. If City utility services were provided by private utility customers, these dividends would instead be paid to investor-owners; because Bountiful taxpayers are the investor-owners, these dividends are used to offset what otherwise would be a significant increase in property tax rates.

Amended Transfer from Light & Power Fund to the General Fund (Fiscal Year 2026)

Bountiful originally estimated transferring \$3,164,831 from the Light & Power Fund to the General Fund. Due to higher-than-expected power consumption, this transfer is proposed for amendment in the amount of \$200,000 (total of \$3,364,831 after amendment). The amended transfer still represents 10% of elected metered sales and 7.66% of total budgeted expenses in the Light & Power Fund. The original transfer amount was 7.2% of budgeted expenses.
