City of Payson Launches “Take Pride in Payson” Community Beautification Initiative

Payson, Utah — Payson City is proud to announce the launch of the “Take Pride in Payson” initiative, a community-wide effort to beautify and enhance the places where we live, work, and gather.

This initiative invites residents, civic and church organizations, local businesses, schools, youth groups, and community partners to unite in a shared commitment to improving the appearance and spirit of our city. Through small acts of care and collective action, Payson City hopes to inspire lasting community pride

Participants are encouraged to take part in a variety of beautification activities, including:

- Improving and maintaining yards and landscaping
- Removing weeds and overgrowth
- Picking up litter and cleaning public spaces
- Organizing neighborhood and group clean-up projects

The Payson City Beautification Committee emphasizes that this initiative is about more than appearance—it is also about building stronger community connections. Residents and organizations are encouraged to lend a helping hand to neighbors who may need additional assistance with yard work or cleanup projects.

To support these efforts, City resources are available to assist organized groups and projects by providing dumpsters for larger cleanup efforts in designated areas.

“We hope everyone will look for ways, big or small, to contribute,” said the Beautification Committee. “By working together, we can create a cleaner, more welcoming, and more beautiful Payson for everyone.”

Those interested in organizing a group project or learning more about how to participate can contact:
