Mr. Dansie,

I respectfully request that the parking funds collected on July 4 on Lion Blvd NOT be donated to Zion Forever Project. As stated in your packet document, this would be a departure from using funds from parking fees for other than transportation purposes per the policy that was set by the Town Council.

The event that will held at the O.C. Tanner on July 4th will already be using much of our police force and parking staff. They will already have been stretched thin for the parade earlier in the day and traffic control due to the three-day weekend traffic. The parking fee funds held to pay for these services.

If the Town Council wants to consider donating to Zion Forever Project from other discretionary funds, that is their prerogative. But I do not believe they should come from this source.

Thank you,

Lisa Zumpft Killen
