

Dear Residents of Meadow Town:

On June 25, 2026, Governor Spencer J. Cox issued an executive order regarding temporary fireworks restrictions in the State of Utah due to historic drought, extreme fire danger, and extraordinary wildfire conditions. After careful review of the current hazardous environmental conditions within and surrounding our community, and in consultation with the Fire Marshal, Meadow Town will not permit the discharge of any fireworks within its municipal boundaries.

This restriction applies to all private fireworks, including those otherwise permitted under Utah law, and shall remain in effect until the hazardous fire conditions have subsided and the restriction is lifted by the State and Meadow Town.

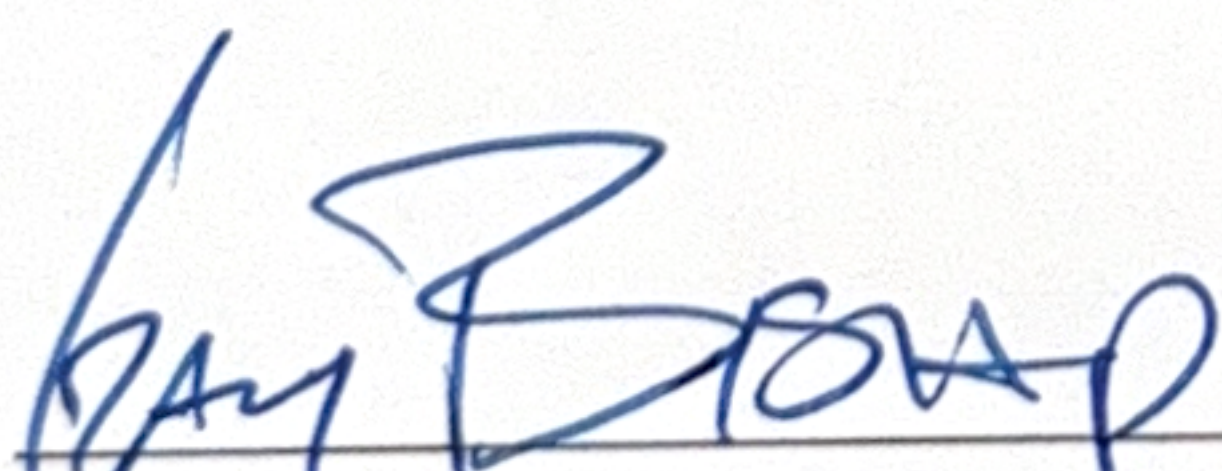

We want you to know that the decision to prohibit fireworks was not made lightly. Fireworks are a traditional part of Independence Day and Pioneer Day celebrations, especially this 250 year. However, current drought conditions, dry vegetation, winds, and limited firefighting resources creates an immediate and serious risk to public safety. During this restriction, there shall be no discharge of fireworks anywhere within the Town. This includes, but is not limited to:

- Aerial fireworks;
- Ground fireworks;
- Firecrackers; or
- Any other firework or pyrotechnic device capable of creating sparks.

Residents are also reminded to exercise extreme caution with any activity that may create an ignition source, including open flames, outdoor burning, welding, grinding, cutting metal, or operating equipment near dry vegetation.

Please be advised that every officer charged with enforcement of state and municipal laws, including the Fire Marshal and local law enforcement, is authorized to enforce these restrictions. The ramifications of starting a fire would be significant. We are experiencing an unprecedented aggressive and dangerous fire season. The safety of our residents, homes, firefighters, and surrounding lands must be our first priority. We ask for your cooperation and understanding as we take this temporary but necessary action to protect our community.

Please celebrate responsibly and help us prevent the next wildfire before it starts.

Meadow Town Mayor

6.27.26

Fire Chief
