Council Department Report
July 2026

TC Report July 8, 2026

URC and Community Clean Energy- Our regular board meeting will be later in the month because of the July 4 holiday. We are reevaluating committee rolls and responsibilities now that we have passed our sign on dates. Other processes, like communication and project evaluation, are continuing.

Community Development- Welcome to David Walpert (Zoning Administrator/ Code Enforcement) and Eugenia Akiyom Planner. Everyone is working to get up to speed with their new positions. We don't have a date yet, but there will be a 2-cent event. Lighting audits will be happening later this year as the amortization period comes closer.

Messaging- We are working to host a small workshop to get further feedback on the project.

Community Health Coalition- Our group is hoping to meet sometime later in July. The group is helping promote the trails master plan project and Parks and Rec Month activities.
