State of Utah Annexation Criteria				
The annexation sponsor must address the criteria below to the satisfaction of Payson City. - Character of the Community. Annexation will accommodate development consistent with the General Plan and new development will be sustainable and improve the community. If the proposed development does not improve the city, the development should not occur. - Municipal Services. Annexed and development areas must be carefully evaluated to determine the impact of municipal services for required staffing increase and projected maintenance costs. Annexation sponsors must demonstrate how municipal services will be provided to the area proposed for annexation. - Extension of Municipal Services. Delivering high-quality municipal services throughout the city is a high priority. As a condition of annexation, developments may be required to extend or improve streets, power, water and sewer, and other vital public facilities consistent with the City's master plans. - Service Financing. Upon annexation, the City has the authority to require a developer to install, upsize, or improve offsite facilities as a condition of annexation. In some cases, an update to Payson City's studies, including Utility Master Plans, Capital Facilities Plans, and impact fee reports. These costs shall be borne by the - Estimate of Tax Consequences. When unincorporated area is annexed, those areas may increase in value, providing additional tax base for the city. The applicant must provide evidence that the annexation will not place a burden on existing residents or future residents of the city. - Interest of Affected Entities. Various entities may be affected by an annexation such as other municipalities, school districts, special service districts, county, state and federal government entities. The applicant shall provide notice to these affected entities concerning the annexation process and ensure their interests are				unknown unknown not provided
