PUBLIC HEARING – Consideration of a proposed ordinance adopting a Temporary Land Use Regulation Prohibiting the Development and Construction of Data Centers and Data Center Power Plants – Ordinance 26-12 – Craig Carlston, City Attorney

City Attorney Craig Carlston discussed the proposed 180-day moratorium on data centers and clarified the statutory limitations and process for adopting new regulations.

Councilmember Simmonds asked whether, although state code limits a moratorium to 180 days, the ordinance development process could continue beyond that timeframe if the proposed land development regulations had reached the Planning Commission before the moratorium expired.

City Attorney Craig advised that, under the pending ordinance doctrine, if the code amendment process has begun, applications submitted after that point may be subject to the proposed regulations. He confirmed that while the moratorium itself is limited to 180 days, the ordinance adoption process

34 may extend beyond that period if the ordinance is actively moving through the required review and
35 approval process.

36 Chair Johnson invited questions from councilmembers. Hearing none, the Council opened the public
37 hearing.

38 Prior to taking public comments, Chair Johnson reviewed the public hearing procedures and requested
39 that comments remain focused on the proposed 180-day data center moratorium only and not future
40 data center regulations.

41 Chair Johnson opened the meeting to a public hearing.

42 **Gail Hanson**, a Logan resident, expressed appreciation for the Council's transparency. She stated her
43 support for the proposed moratorium and for the development of thoughtful regulations governing data
44 centers within Logan City. She also expressed concerns regarding recent actions of the Municipal
45 Infrastructure Agency (MIA) Board, stating that those concerns reinforced the need for the
46 moratorium.

47 **Josh Molitor**, a Logan resident, spoke in favor of the moratorium, describing it as an important first
48 step toward protecting Cache Valley. He expressed concerns regarding future growth, water use, and
49 the potential impacts of data centers.

50 Chair Johnson also noted that Cache County had recently adopted a moratorium applicable only to
51 unincorporated areas of the county and that it did not apply within Logan City limits.

52 There were no further comments, and Chair Johnson closed the public hearing.

53 **ACTION. Motion by Councilmember Simmonds seconded by Vice Chair López to adopt**
54 **Ordinance 26-12 as presented. Motion carried by roll call vote (5-0).**
55 **Dahle: Aye**
56 **Johnson: Aye**
57 **Lee-Koven: Aye**
58 **López: Aye**
59 **Simmonds: Aye**

60 Vice Chair López thanked the City's intern for providing research materials that helped inform the
61 Council's discussion and stated that additional questions should be addressed during the moratorium
62 period before permanent regulations are adopted.

63 Councilmember Dahle asked about the process for developing the proposed regulations.

64 Chair Johnson responded that Community Development, Light & Power, Water, and Legal staff had
65 already begun work on land development code amendments and utility-related proposals.

66 Councilmember Simmonds added the process would include public engagement, and draft regulations
67 would ultimately be reviewed by the Planning Commission before returning to the Municipal Council

68 for final consideration. Additional opportunities for public comment would be provided throughout the
69 process.

70 **Adjournment**

71 There being no further business, the Logan Municipal Council adjourned at 5:40 p.m.
