General Adjudication

What

- Action in State District Court
- Joins all water users - including State and federal agencies - and the State Engineer (Division of Water Rights)
- Governed by Utah State Code: Title 73, Chapter 4
- To determine the nature and extent of all existing water rights within each river drainage

Why

1. **Bring all claims on to the permanent record:**
 - Pre-Statutory Claims
 - *Diligence Claims (1903)*
 - *Underground Water Claims (1935)*
 - Federal Reserve Rights
2. **To prevent a “multiplicity of suits” and bring clarity to the water rights picture.**
3. **Remove/reduce rights which have been wholly or partially forfeited through non-use.**
4. **To obtain final comprehensive decrees on all water rights within the respective drainage.**

Adjudication Process

1

The State Engineer is petitioned by water users or court-ordered to initiate a General Adjudication. (UCA 73-4-1)

2 **NOTICE**

The State Engineer publishes notice of the pending adjudication for 2 weeks in a local newspaper. (UCA 73-4-3)

3 **PUBLIC MEETING**

The State Engineer holds an initial Public Meeting in the local area to inform water users about the adjudication process. (UCA 73-4-3)

4 **SUMMONS**

The State Engineer serves Summons on claimants and publishes Summons for 5 weeks in a local newspaper. (UCA 73-4-4)

5 **HYDROGRAPHIC SURVEY**

The State Engineer conducts a hydrographic survey of the area and assists the claimants in completing their Water User's Claims. (UCA 73-4-3)

6 **90 days**

Claimants have 90 days following notice of the completion of the hydrographic survey in which to file a Water User's Claim with the District Court or State Engineer. (UCA 73-4-3)

7

The State Engineer reviews Water User's Claims and other records and prepares a Proposed Determination which is then distributed to the claimants and filed with the District Court. (UCA 73-4-11)

8 **PUBLIC MEETING**

The State Engineer holds a Public Meeting to discuss the Proposed Determination with claimants. (UCA 73-4-11)

9 **90 days**

Civil Case Number

NOTICE TO WATER USERS WITHIN THE ABOVE-DESCRIBED DRAINAGE AREA:

This is the Proposed Determination of Water Rights for the Provo River Division, Orem Subdivision, Area No. 55, Book 3, of the Utah Lake and Jordan River General Adjudication. The Division of Water Rights has prepared the Proposed Determination as required by Utah Code § 73-4-11. The Proposed Determination is the State Engineer's report and recommendation to the Court as to how all rights to the use of the water in the Orem Subdivision should be determined. A copy of the Proposed Determination has been filed with the Clerk of the Third District Court in Salt Lake City, Utah. Additional printed copies are available, upon payment of printing costs, from the Division of Water Rights at 1594 W. North Temple, Suite 220, Salt Lake City, Utah, telephone, (801) 538-7240. An electronic copy in PDF format is also available for download free of charge from the website of the Division of Water Rights at www.waterrights.utah.gov.

You are hereby notified that under Utah Code § 73-4-11(2), any person claiming a water right in the Orem Subdivision who is dissatisfied with the Proposed Determination may object to it, but only in accordance with the following requirements: the objection must be in writing and filed in the Third Judicial District Court, in Salt Lake County, 450 South State Street, P.O. Box 1860, Salt Lake City, Utah 84114, within ninety (90) days after being served with notice of completion of the Proposed Determination. Service of the Proposed Determination is effective on the date the notice is mailed. A claimant who wishes to object to the Proposed Determination should also serve a copy of the objection on counsel for the State Engineer at the address shown below.

Orem Proposed Determination Preamble

IN THE THIRD JUDICIAL DISTRICT COURT IN AND FOR SALT LAKE COUNTY, UTAH

IN THE MATTER OF THE GENERAL DETERMINATION OF THE
RIGHTS TO THE USE OF ALL OF THE WATER, BOTH SURFACE
AND UNDERGROUND, WITHIN THE DRAINAGE AREA OF UTAH
LAKE AND JORDAN RIVER IN UTAH, SALT LAKE, DAVIS, SUMMIT,
WASATCH, SANPETE, AND JUAB COUNTIES IN UTAH

PROPOSED DETERMINATION OF WATER RIGHTS IN
THE UTAH LAKE AND JORDAN RIVER GENERAL ADJUDICATION
PROVO RIVER DIVISION
OREM SUBDIVISION
AREA NO. 55, BOOK 3

Salt Lake County Civil No. 365729822

Judge Laura Scott

Teresa Wilhelmsen, P.E., State Engineer of the State of Utah, respectfully
submits this report and recommendation to the Court.

1. Geographical Area Covered. This General Adjudication, known as the Utah Lake and Jordan River General Adjudication, includes all water sources, both surface and underground, within the drainage of the Utah Lake and Jordan River in Utah, Salt Lake, Davis, Summit, Wasatch, Sanpete, and Juab Counties in Utah. This Proposed Determination is limited to water rights with points of diversion in the Orem Subdivision of the Provo River Division of the Utah Lake and Jordan River General Adjudication. The Orem Subdivision is the area on the map shown on page viii. The Utah Division of Water Rights has designated the Proposed Determination for this area as Area 55, Book 3.

2. Commencement. On September 1, 1944, the Court ordered the State Engineer to make a determination and adjudication of all rights to the use of water of Utah Lake and Jordan River and their tributaries in Utah and Salt Lake Counties. On June 21, 1972, the Court issued an order clarifying that the adjudication area includes all the rights to the use of water, both surface and underground, within the drainage area of Utah Lake and Jordan River and their tributaries in Utah, Salt Lake, Davis, Summit, Wasatch, Sanpete, and Juab Counties. The Court also ordered that the title of this action be amended to read, “In the Matter of the General Determination of the Rights to the Use of

all of the Water, Both Surface and Underground, Within the Drainage Area of the Utah Lake and Jordan River in Utah, Salt Lake, Davis, Summit, Wasatch, Sanpete and Juab Counties in Utah.”

3. Prior Decrees. Prior to the commencement of the Utah Lake Jordan River General Adjudication, the Court entered a decree in Provo Reservoir Company, a corporation v. Provo City, et al., Fourth Judicial District Court, Utah County, State of Utah (May 2, 1921) a.k.a. the “Provo River Decree”. This judicial decree was instrumental in distributing water from the Provo River within the Orem Subdivision and other areas. Although the Provo River Decree was neither comprehensive in joinder nor exhaustive in detail, it serves as the basis for many of the water rights recognized within the Orem Subdivision. Consequently, the State Engineer continues to reference the attributes and limitations imposed by the historical decree within the body of the respective water right(s) contained within this Proposed Determination.

The State Engineer has evaluated each claim in the Orem Subdivision that can be tied to an award in the 1921 Provo River Decree. The 1921 Provo River Decree identified awardees and established a class-based system to guide equitable distribution of the source. The class system is divided between two divisions, the “Wasatch Division” and the “Provo Division”. The Wasatch Division is distributed among classes labeled First through Twentieth, and the Wasatch Division Power Rights, while the Provo Division is distributed among classes labeled A, B, C, D, E, F, G, H, I, and J. 3. Prior Decrees. Prior to the commencement of the Utah Lake Jordan River General Adjudication, the Court entered a decree in Provo Reservoir Company, a corporation v. Provo City, et al., Fourth Judicial District Court, Utah County, State of Utah (May 2, 1921) a.k.a. the “Provo River Decree”. This judicial decree was instrumental in distributing water from the Provo River within the Orem Subdivision and other areas. Although the Provo River Decree was neither comprehensive in joinder nor exhaustive in detail, it serves as the basis for many of the water rights recognized within the Orem Subdivision. Consequently, the State Engineer continues to reference the attributes and limitations imposed by the historical decree within the body of the respective water right(s) contained within this Proposed Determination.

The State Engineer has evaluated each claim in the Orem Subdivision that can be tied to an award in the 1921 Provo River Decree. The 1921 Provo River Decree identified awardees and established a class-based system to guide equitable distribution of the source. The class system is divided between two divisions, the “Wasatch Division” and the “Provo Division”. The Wasatch Division is distributed among classes labeled First through Twentieth, and the Wasatch Division Power Rights, while the Provo Division is distributed among classes labeled A, B, C, D, E, F, G, H, I, and J. Further explanation of how water is distributed amongst the awardees may be found within the decree itself. Copies of the Provo River Decree can be accessed from the Utah Division of Water Rights’ website: <http://www.waterrights.utah.gov/cgi-bin/decrview.exe>

The logo for the Utah Department of Natural Resources (DNR) Water Rights section. It features a blue silhouette of the state of Utah. Inside the outline, the word "UTAH" is written in blue, "DNR" in large brown letters, and "WATER RIGHTS" in blue at the bottom. A blue balance scale is positioned in the center, with two blue water droplets hanging from its pans.
