

Updated rules concerning
the Amendment to the Scofield
Town Declaration of Hazardous
Environmental Conditions

Dated June 14, 2026 Adding Section g. to the Declaration Prohibiting
the Discharge of Fireworks and Other Possible Ignition Sources

This document is an update to section g in regards to campfires. Due to recent numerous rainfall events in Scofield town and the surrounding Wildland Urban Interface areas, the Scofield fire chief has determined that fire danger has decreased dramatically.

Because of the moisture that we have received, campfires will be allowed in improved fire pits where running water is available. Ground fires are not permitted.

Fireworks are still banned until further notice.

Dated this day of July 23, 2026.

Kim Erkkila
Acting Fire Chief
Scofield Town

Jim Levanger
Mayor
Scofield Town
