THE MODERN WATER CYCLE

The hydrologic cycle representing **major water pools (blue text)**, **natural water fluxes (black text)**, and any fluxes **directly impacted by humans (orange text)**. Orange shading indicates areas of human pollution. This image does not include important seasonal and year-to-year changes in the many pools and fluxes in the water cycle.

The image is a screenshot of a Google My Maps interface. At the top, there's a red header bar with a menu icon, a profile icon labeled 'F' for 'Frances Schneider', the title 'FIELD TRIP AT WILLOW CREEK', a search icon, and a settings icon. Below the header, it shows '127 views' and 'Published on January 15'. There are two buttons: 'SHARE' and 'EDIT'. The main content area has a title 'STATION ROTATIONS' with a red checkmark icon. Below this title is a list of items, each with a location pin icon: 'PAVILION' (brown), 'STORMWATER DRAINS' (yellow), 'WATER QUALITY' (blue), 'JORDAN RIVER' (teal), 'Walking between stations' (blue with a walking figure), and 'BATHROOM' (red). At the bottom left, there's a small map preview showing a green area with a blue line. At the bottom right, it says 'Made with Google My Maps'.
