CITY COUNCIL MEETING
August 12, 2026
5:30 P.M.

The City Council meeting will be held in the Council Chambers at the City Office, 10 North Main Street, Cedar City, Utah. The City Council Chambers may be an anchor location for participation by electronic means. The agenda will consist of the following items:

I. Call to Order

II. Agenda Order Approval

III. Administration Agenda
- Mayor and Council Business
- Staff Comments

IV. Consent Agenda
1. Approve minutes dated July 15th and July 22nd, 2026.
2. Ratify bills dated July 29th and July 30th.
3. Approve purchase of 2027 Chevy 3500 in the amount of $60,549. Chief Mike Phillips
4. Approve Board Appointments: Library Board- Release Elaine Vickers, Appoint Brent Potter; Board of Adjustments- Release Chris Bearnson, Appoint Brant Parker. Mayor Nelson
5. Approve bid from Advanced Construction and Design LLC in the amount of $282,664.00 for the Cemetery Renovation Phase 4 (6R). Shane Johnson/ Kent Fugal

V. Action Agenda
6. Consider Zone Change from Residential Dwelling- Two Unit (R-2-2) to Central Commercial (CC) in the vicinity of 1133 S Main St. Richard Reese / Standard Plumbing Supply / Randall McUne
7. Consider General Plan General Plan change from Rural Estates to Business and Light Manufacturing and from Central Commercial and High Density Residential to Industrial/ Heavy Manufacturing in the vicinity of 800 N Iron Springs Road, including Iron Springs Road from 800 N to 5500 W. Platt & Platt / Randall McUne
8. Consider purchase of Flock Insurance in the amount of $25,000 annually. Chief Darin Adams
9. Consider an Agreement with UDOT for the Fiddlers Canyon Trail Extension. Bill Maxwell/ Kent Fugal
10. Continue discussion related to backup generator and the western wells. Ryan Marshall/ Matt Baker

VI. Public Comments

Dated this 10th day of August, 2026.

Amber Ray
City Recorder

CERTIFICATE OF DELIVERY:
The undersigned duly appointed and acting recorder for the municipality of Cedar City, Utah, hereby certifies that a copy of the foregoing Notice of Agenda was delivered to the Daily News, and each member of the governing body this 10th day of August, 2026.

Amber Ray
City Recorder

COUNCIL WORK MINUTES
July 15, 2026

The City Council held a meeting on Wednesday, July 15, 2026, at 5:30 p.m. in the City Council Chambers, 10 North Main Street, Cedar City, Utah.

MEMBERS PRESENT: Councilmembers: R. Scott Phillips- Mayor Pro-Tem; Phil E. Schmidt; Carter Wilkey.

MEMBERS ABSENT: Mayor Steve Nelson, Councilmembers: Robert Cox, Councilman Waldo Galan

STAFF PRESENT: City Manager Paul Bittmenn; City Attorney Randall McUne; Finance Director Terri Marsh; City Recorder Amber Ray; City Engineer Kent Fugal; Police Chief Darin Adams; Leisure Services Ken Nielson; Public Works Ryan Marshall; Library Dallan Olcott, Heritage Theatre Jason Clark; Economic Development David Johnson; Golf Course Steve Carter

OTHERS PRESENT: Scotty Harville, Ann Clark, Tom Jett, Bill Payne, Kim Shoonmaker

CALL TO ORDER: Ann Clark gave the invocation; the pledge was led by Scotty Harville.

AGENDA ORDER APPROVAL: Councilmember Wilkey moved to approve the agenda order; second by Councilmember Schmidt; vote unanimous.

ADMINISTRATION AGENDA – MAYOR AND COUNCIL BUSINESS; STAFF COMMENTS: ■ **Schmidt**: The last couple weeks, I've had a great opportunity working with Eric on the park over behind the Elks Club, and working with the City Water Department last night. We turned water off about 10 o'clock, but we did have it back on at 3:00 am. We upgraded the vault on Lund Highway, right in front of Wheeler's equipment. Now we have a 12-inch vault with a 4-inch bypass, everything went pretty well. We had the fire chief out burning weeds and wood in Coal Creek south of the bridge. We're getting Coal Creek cleaned up for future floods. I've just had a great week working with all the city employees. They've been great, and I'm just very grateful for the good help we have. I just wanted to give them a shout-out.
■Swear in Code Enforcement Officer, Jayson Miller and Patrol Officer II, Jacob Jackson
Jayson Miller: I'm the new co-enforcement officer with Officer Vasquez. I'm from Price, Utah. I got married June 19th. I came down here because my wife Ashlyn is currently going to college to be an elementary teacher, and I've just loved the area. **Jacob Jackson:** I transferred over from the University Police at SUU. Unlucky for them, lucky for me, the city offered me a great opportunity here. I grew up in southern Utah, so it's always had my heart. I met my wife here. We've been married four years. We have a little baby girl that's 18 months old. I'm really happy to be here because I can't think of a better way to ensure the welfare of my family than to help ensure the welfare of the community they live in.
Amber Ray administered the Oath of Office to Jayson Miller and Jacob Jackson.

RESOLUTION TO APPROVE A REPLACEMENT BOARD MEMBER FOR THE TRAILS AT SHURTZ CANYON PID. J TYLER KING/RANDALL MCUNE: **Tyler King:** There's currently a vacancy on the PID board's board of trustees. Per the governing document, the PID needs to approach the City Council to have a replacement appointed. Mr. Wilson has resigned, and the landowner has nominated, for your consideration, Mr. Tommy Mann to replace him on the

board. **Phillips:** I read about Mr. Mann. Very interesting background. Is Mr. Mann a landowner out there? **King:** He is an agent.

Councilmember Wilkey moved to put this item on the action agenda; seconded by Councilmember Schmidt; vote unanimous.

FIDDLERS PARK – BIG T RECREATION PRESENTATION. PAUL FOSTER/KEN NIELSON: Ken Nielson: As you know, we've started the construction of Fiddler's Park. PRT is turning dirt and doing all their work. Paul Foster with Big T is the fun stuff. I call him the fun stuff because he's got all the playground amenities, the pavilion, all those good things. I wanted him to come to show some concepts for you, just an update as we move forward. He'll give you the timeline for all those things, and you're welcome to ask him any questions. He's really good at what he does. I'll just turn the time over to him. **Paul Foster:** I come from a parks and recreation background, so I've been in this seat before. Tonight we're talking about some really good things, I'm excited to be a part of it. We do parks all over Utah, Idaho, and Nevada. Large projects, small projects, and everything in between. Over the course of the last four to five years, I've worked with your staff here at every level, from your parks, to your cemeteries, to your aquatics, to Ken. And just I can't say enough about how phenomenal your organization is. The vision of what you're doing with your parks and everything that's happening here, we're proud to be a part of it. Anytime anyone wants to look at some of our best parks, I send them here. So great work. We're excited to be a part of this one as well. It's going to fit really well with what you're doing throughout your whole park system as a whole. *Presentation attached.*
Phillips: What's the maintenance like on that product? **Foster:** It wears naturally. You can always expect a little bit of weathering. The wood will gray, but they don't treat it with anything. We have some that have been in the ground in Utah for eight years now, and they've weathered, but you can climb around on them and be on them without getting everyone worries about the splinters and the longevity of it. I know you've had a wood park before, this is completely different. It's naturally bug resistant, naturally UV resistant because it's made to be outside. It is black locust robinia.
Phillips: What kind of a timeframe do we think we're looking at for this process? **Ken:** PRT will be done in October. The bridge will be done in November. Then it turns to Mr. Foster in the spring because the pour-and-place is temperature sensitive. **Wilkey:** On the site plan, what is being done on the north side of the canal? **Ken**: Nothing at this time. **Foster:** The trail segment that comes through there is supposed to be on the north side of the channel. The bridge will take you from the trail over to the park.
Kim Shoonmaker: I've been a part of this process for those four years that we've been waiting for this. On the play set, with the slide, is it going to be natural colored? It's not going to be orange, right? **Foster:** We haven't finalized colors, but what you see are the proposed colors. **Ken**: We can pick whatever color. **Kim:** The rendering that I saw that were put out through Terracona, was more of a stainless-steel look or a grayish look that was far less loud. **Ken:** This park is not going to have any of those bright colors that the Park Discovery has. We want to make this natural. **Kim:** The other logistical question I had, did we clarify that the parking stalls are going to be a little bit bigger than the ones that are at the library? **Ken:** Yes, when it was brought up, we widened it.
Wilkey: What's the life expectancy on the ropes? **Foster:** Rope play always depends on use. It's a four-piece rope design, it's got four layers of it. Very robust. It's typically a 15-year life cycle on all the rope play. Everything you see on the rope, including the spinner, all comes from the same place. It's all the same thing if there's ever any issues for replacement purposes or upgrades. **Kim:** Is there a timeline on phase two? When we are going to start working on that and when we hope to have that done? **Phillips:** It'll all depend on budgetary stuff, we'll look at impact fees. We'll look at

other general funds. **Kim**: So like five more years is kind of what we're thinking because that's how long it's taking us. **Phillips:** I would like three more years. **Wilkey:** We need to get back together and talk about where things are at. There was originally plans to have memorial stuff and all that kind of stuff. We just need to get back on track there. **Scotty Harville:** Is there going to be a flagpole that has lights? Is there going to be any future plans for veterans memorials? **Ken:** There's a flag designed. We just don't know exactly what location we want it to be. **Phillips:** Make sure it's tall enough that we can get a couple of flags on it or two flagpoles or something. **Ken:** We're going to look at the tree design and pick the right spot for it. **Phillips:** I'm really struck by the notion of trying to do a wood. For the powder coating on the hammock stands, I know we have scenic painters that can create wood because they do it all the time in my profession. I don't know if such a thing is even possible in a powder coating world. **Foster:** I'll check with our vendor on that.

CONSIDER A RESOLUTION APPROVING THE HERITAGE CENTER FEES AND CONTRACTS. JASON CLARK/RANDALL MCUNE: Jason Clark: Randall suggested we should be doing waivers rather than contracts. We decided we're going to reexamine that as a waiver. **Randall:** You can use either option. Most of our other departments are using the waiver route. That way, they don't have to find someone who's authorized to sign contracts under the city's policies. The result ends up being the same. We're letting you use our property. You have to sign the waiver first. It ends up with the same legal result, but it simplifies the process and having to get it done. This is with regards to liability risk. The waiver just says they're not going to break stuff. They're not going to do stupid things in our facility. They're going to treat it respectfully, things like that. **Jason:** We have done an extensive review of the rates for comparable facilities throughout the region. Staff has worked diligently in putting this together. We've had some rate increases in the past, and also we've had many addition venues come into our community versus what it was 20-plus years ago. I had my staff break down what are we charging per square foot for a four-hour block, so you can see we're on the downward slope of that. We propose, a doubling of those rates. As you can see, we basically flatten out that line and become where everyone else is in our community. We do have some outliers. Those tend to be very luxurious places, primarily designed for private parties, wedding receptions, that kind of thing. **Wilkey:** Room seven is the most rented, why is it the cheapest per square foot. I just don't see why room seven should come at a discount when it's our number one rented room. **Jason:** We've doubled the rate. We're going from $225 to $445. We are going through a substantial increase. We would like test the market with these rates and see where we fall. We will have some drop-off. Some people who are getting the room currently will not come back. Once rates are established, we plan on of having a major marketing campaign. **Wilkey:** It looks like now you're going to be charging for the kitchen where before that was just included in room seven. **Jason:** That is correct. Not everyone uses the kitchen. The kitchen is more labor-intensive to clean. **Wilkey:** What's the difference between basic and full use. **Jason:** That's probably a term that we might want to eliminate, we will make the appropriate adjustment on that. It should just be full use. **Phillips:** If you look at some of your totals I'm assuming those numbers derive from square footage, it just seems like weird numbers. **Jason:** We're basing it on square footage and things like that. If we want to set more block rates, we certainly can do that. We were trying to keep it to the square footage versus our competition. **Wilkey:** By you doubling these, essentially, you could lose half your business, and you'd still make the same amount of money, and it would cost us a lot less because it'd be less light, less employees. You'd be making the same amount of money with a lot less effort. **Jason:** We took all those factors into consideration. Right now, the heaviest users are the county and the city, which use the facility for free. But there are ways to go to fill up available dates on the Festival Hall side.

Schmidt: I'd like to see nice, good, solid round numbers. **Jason:** We rounded them to the nearest $5. We certainly could round them to the nearest $25 if that's what you request. **Schmidt:** I don't know how many people really understand square footage, but take a look on the buildings and what we're renting them out for. Instead of saying so much per square foot, probably most people don't even really get how big a square foot building is. **Jason:** Most people come in and we show them the rooms. We broke it down to a square footage so that we know exactly what our competition was charging versus us. Like I say, most people do physically come in and look at the rooms they want to rent. **Wilkey:** The public will never see the square footage price. That was just for you to. **Jason:** We don't show that. We were providing that for information for you where we have been, where we're going, and how we got there. We are basically in line with what the room rental market is. For the theatre, the biggest comparison is not how big the theater is, but how many seats you have. What we've done is taken a look at what are we charging per seat in the venue. There's a lot of other factors involved in renting a theater, but the first one is how many seats do you have? We broke our facility down per seat versus other venues within our region. **Phillips:** I'm very sensitive to what you're saying, Mr. Clark, but our costs as a city are going up. Our employee costs are going up. Heat goes up. Air conditioning costs go up. Power goes up. We've got to be able to somehow recoup some of that in the facilities. I know more and more arts groups have come into the RAP Tax pool. But fortunately, for the time being, our revenues have also increased in that area. So all of the organizations got a bump this year that applied. **Schmidt:** We went to a meeting today on another deal, and they talked about their fees. I won't go over what they all are, but they were quite substantial, but they had to do that in order to keep up. I don't see what the maintenance that is required or needed on our facility and the fees that we're charging, the amount of people, the bookings that you currently have, I see us falling further and further and further behind. I'm not saying we have to make a profit on everything, but we've got to be able to cover at least updating and fixing some of these things. We're not doing that. We need to get these prices up a little bit. **Jason:** We're hoping that we will have a similar rate increase next year. **Schmidt:** We're not talking next year. We're talking now because we are not getting there. **Phillips**: You're not comfortable with the proposed increases? **Schmidt:** I don't see it being substantial enough. We're still falling even though everything around economics and everything else is going up. On the theater, we are falling further and further behind. **Phillips:** For the purpose of trying to move this forward, we want to have you round to $25. **Wilkey:** One thing that we need to keep in mind is there's one night performances, and that's the $200. But somebody that's in there for three weeks or two and a half weeks, it's $200 every day they're in there. But by them being in there for multiple nights, are they taking that location from somebody that could use it for a single night? J**ason:** Right now, we are under a first-come, first-serve rental arrangement. That's a policy that if the council wants to address, we certainly can address that. We thought at this point, that was beyond the scope of just the fee increase. **Wilkey:** It's just it's hard if you're past a certain number of nights, start giving a discount per night because could we fill it up with somebody who's not going to get a discount? **Schmidt:** The theater Sunday through Thursday at .96 cents. I look at other venues, and I don't see anybody even close to that. I think there's a little bit of room here. We could at least go up to $1.06, maybe $1.00, $1.05 for round numbers. Go from .96 up to $1.05. It puts us more in line with everybody else. **Wilkey:** Can you explain the difference between rehearsal and theater? They pay a cheaper price during all their rehearsals, and then the nights the shows are actually open, they pay more? **Jason:** When you are rehearsing, as a rule, you don't have as many people in the building. You're not using the lobby restrooms, you don't need all the tech support, you don't have house support. Our running costs are lower on a rehearsal night than a performance night. **Wilkey:** My concern with that is giving somebody a rehearsal rate that's less on a Friday and a Saturday. If you're going to take the auditorium over the weekend to rehearse, I

think you should pay full price. Those are our biggest days. I'm fine with them getting a discount on rehearsal during the week, but I think on the weekend, if they're going to take up the whole auditorium and we're having to say no to something that would be using it, and we could be collecting $1.06 per seat, we're only charging half of that because they happen to be rehearsing on the weekend. **Phillips:** I think that's a fair, you have to look at the supply and demand. **Wilkey:** I struggle to give them the whole theater on the two busiest days of the week for a much lesser price because they want to rehearse on a weekend. **Jason:** We could simply eliminate it.
Tom Jett: This theater is going to disappear and so are a lot of other options if we don't get our financial house in order when it comes to being self-sufficient. No one expects it to make a profit. How often is the basement below the main theater used for rehearsals and so forth. **Jason**: Not too often. **Tom:** That's a very large room. **Phillips:** The problem with that rehearsal hall is the ceilings are so low, you can't really do a full stage rehearsal in there because you can't put your arms up over your heads. You can't raise a sword. You can't climb a staircase. **Tom:** I think maybe they could push it. For those events that aren't raising the swords or that type stuff, just for general performance. To get that utilized a little bit more. It's a shame to let that space be heated and not utilized.
Wilkey: We do have to be somewhat cautious. Some of these things that we're saying, we got to be competitive, but we're competing against private enterprise. Their job is to make money. This is a community theater. It's our job. This is for the community. We need to always try to keep that as part of the conversation. We don't need to be the same price as a private enterprise. Their job is to make money. Our job is not to make money off of this theater. Our job is for it to try and pay for itself as much as possible.

Councilmember Wilkey moved to put this item on the action agenda with the following direction: bring it back with seat price to $1.05, round all rooms to $25, and remove rehearsal option on Friday and Saturdays; seconded by Councilmember Schmidt; vote unanimous.

Phillips: Can we get an update on 100 East Road Project? **Kent:** The 100 East Road Project is substantially complete. We're down to really just punch list items that we're trying to finish up. The project has gone fairly well. We've got the curb gutter sidewalk in. It's paved, and we've been moving forward with that. **Steve Carter:** The net is not up, I don't think it's even out to bid yet. We met with the engineer just a couple of days ago and that's moving forward.

CONSIDER PURCHASE OF TORO REELMASTER FAIRWAY MOWER IN THE AMOUNT OF $100,277. STEVE CARTER: **Steve Carter:** This is in the budget, it is to replace one bought in 2014. We will continue to use the old one as a first cut mower until it quits. I think we can get another year, year and a half.

Councilmember Wilkey moved to put this item on the consent agenda; seconded by Councilmember Schmidt; vote unanimous.

CONSIDER LEASE AGREEMENT WITH HIGHLAND GOLF IN THE AMOUNT OF $5,198.27 PER MONTH. STEVE CARTER: **Steve Carter:** This is a 5 year lease. Typically on year four your flip it to get more bang for your buck on the carts that you are turning back in, and the lease starts over. If we don't then the city decides if they want to renew the lease or buy the carts. **Phillips**: What is the time frame to get the carts? **Steve:** November 1st. **Wilkey:** How many carts do you have now? **Steve:** We have close to 80, but we have 10 carts that are broken down. **Phillips:** I looked at the amount you're proposing, over a year that's $62,379, but I didn't think that

was the amount we had in the budget. **Paul:** We didn't have that full amount, but they already had an existing allocation in their budget to replace golf carts. We added that allocation plus what you guys added to the budget equals the lease amount.

Councilmember Wilkey moved to put this item on the consent agenda; seconded by Councilmember Schmidt; vote unanimous.

CLOSED MEETING- IMMINENT LITIGATION: Councilmember Wilkey moved to go onto closed meeting at 6:44 pm; second by Councilmember Schmidt; roll call as follows:

Scott Phillips - aye
Phil Schmidt - aye
Carter Wilkey - aye

ADJOURN: Councilmember Wilkey moved to adjourn at 6:49 p.m.; second by Councilmember Schmidt; vote unanimous.

COUNCIL MINUTES
July 22, 2026

The City Council held a meeting on Wednesday, July 22, 2026, at 5:30 p.m. in the City Council Chambers, 10 North Main Street, Cedar City, Utah.

MEMBERS PRESENT: Mayor Steve Nelson; Councilmembers: Robert Cox; Waldo D. Galan; R. Scott Phillips; Phil E. Schmidt; Carter Wilkey.

STAFF PRESENT: City Manager Paul Bittmenn; City Attorney Randall McUne; Administrative Assistant Natasha Nava; City Engineer Kent Fugal; Senior Engineer Jonathan Stathis; Police Chief Darin Adams; Fire Chief Mike Phillips; Public Works Director Ryan Marshall; Economic Development Director David Johnson; Golf Course Superintendent Steve Carter; Heritage Manager Jason Clark; Library Director Dallen Olcott.

OTHERS PRESENT: Jacob Miner; Bill Payne; Tonya Payne; Jennifer Hunter; Austin Flynn; William Riddle; Ann Clark; Scotty Herrille; David Fiddament; Nathan Richter; Thomas Loveheart; Guage Rosenberg; Tyler Rowland; Charley Adams; Kami Merrill; James Lee; Debra Mulcaky.

CALL TO ORDER: Council member R. Scott Phillips gave the invocation; the pledge was led by David Johnson.

AGENDA ORDER APPROVAL: Councilmember Phillips moved to approve the agenda order; Councilmember Cox seconds; vote unanimous.

ADMINISTRATION AGENDA – MAYOR AND COUNCIL BUSINESS; STAFF COMMENTS:

■Economic Development End of Fiscal Year Recap.
See Exhibit "A". **David Johnson** I'm here to give an end of year update. **Phillips** do you have numbers related to the seven ribbon cuttings regarding investments? **David** I don't, but I can get that information. **Phillips** data from the July Jamboree should be included in the presentation. **David** I have some tourism data that I can present. Daisy is working on collecting data to assist the City. **Mayor Nelson** I would like to see tourism data for the various events that the city provides funding for.

■Presentation of 2025 Water Report.
Jonathan Stathis See Exhibit "B". This report is of the calendar year 2025. It is also available on the city website. The city must file a report with the state by the end of March each year. The overall water use in acre feet in 2025 was 8% less than 2024. We average about 400 homes built annually. That means that our conservation efforts are paying off. The city continues to acquire water rights from developers and the city purchases water rights as they become available. In terms of water use, the peak day usage was 16 million gallons per day on August 5th. The peak day average over the past 10 years has been 15 million gallons per day. The peak day is very important because the city must construct infrastructure to meet that peak day demand.

CONSENT AGENDA: (1) APPROVE MINUTES DATED JULY 1ST AND 8TH, 2026 (2) APPROVE BILLS DATED JULY 15TH AND 16TH, 2026 (3) APPROVE PURCHASE OF TORO REELMASTER FAIRWAY MOWER IN THE AMOUNT OF $100,277 (4)

APPROVE LEASE AGREEMENT WITH HIGHLAND GOLF IN THE AMOUNT OF $5,198.27 PER MONTH.

Councilmember Phillips moved to approve the consent agenda as written above, seconded by Councilmember Cox; vote unanimous.

(5) CONSIDER CONTRACT RENEWAL WITH FLOCK SAFETY IN THE AMOUNT OF $157,500.01 PER YEAR. DARIN ADAMS **Mayor Nelson** We have already had a work meeting where we listened to public comments. We decided to allow extra time between the work and action meeting so that we could do our due diligence. It's been about a month and in that time there has been a lot of engagement. I've watched a lot of videos and read a whole lot of articles, and I think all the council has tried to be diligent in understanding the arguments and the perspectives. **Chief Darin Adams** See Exhibit "C". I was asked to provide information regarding case success due to Flock. I have served with the police department for nearly 29 years. I've lived in Cedar all my life. I love this community. I'm passionate about protecting the people that call Cedar City home. Over the past year, as I have demonstrated, Flock Safety has proven to be an exceptional partner in that mission. This technology has played a significant role in helping us identify suspects, recover stolen property and vehicles, locate endangered individuals, and solve cases that I'm confident would have remained otherwise unsolved. More importantly, it has helped bring justice to victims who deserve answers and accountability. I also recognize that with any technology comes a responsibility to ensure it is used appropriately. Accountability is extremely important to me. Since implementing the system, I have made it a priority to audit its use and ensure officers are using it in accordance with policy, the law, and public trust. Public trust is earned, through transparency, accountability, and responsible leadership. Those principles have guided our use of this technology from the beginning, and they will continue to guide us moving forward. I serve at the pleasure of the mayor and the council. I value your leadership and your oversight, and I respect the decisions you make on behalf of our community. Whatever decision is made tonight, I will support and implement faithfully. Based on the measurable results we have seen over the past year, the lives positively impacted, the crimes solved and the justice provided to victims. I believe the evidence clearly demonstrates that Flock Safety has been a valuable investment for Cedar City. And for those reasons, I respectfully recommend approval of the renewal contract before you this evening. **Phillips** this renewal contract is not expanding the current agreement in any way. **Darin** correct. We're not adding more equipment than what we already have. **Wilkey** what is the recourse if our own officers are caught misusing the system? **Darin** we have a policy that strictly guides that. There is a statute under 416A 2006 which makes that a class B misdemeanor to utilize this data, this hardware, and software in a manner contrary to the statute. **Wilkey** our contract is a two-year cycle, will this always come before the council for renewal? **Darin** yes. This will always come back to the council for approval. **Wilkey** can you report back to the council on a quarterly or yearly basis with information regarding how Flock was used by law enforcement? **Darin** that could be part of our annual information sharing. **Galan** I would like an additional auditing layer that includes monitoring the use or abuse of any of the parameters as they are established today. Absolutely no changes can be made to Flock without being approved by council. **Wilkey** I want to make sure that the public is confident that any abuse will be treated swiftly and with the highest of consequences to that officer. I want a policy drafted with the ramifications of abuse. What if anything is abused on Flocks end? **Randall** in the event of any material breach of this agreement the non- breaching party may terminate this agreement prior to the end of the term by giving 30 days prior written notice to the breaching party. This agreement will not terminate if the breaching party has cured the breach prior to the expiration of such 30-day

period. If we feel like they're in breach, and we can obviously prove the breach occurred, we have a 30-day written intent to terminate. **Phillips** If there is damage to the cameras or vandalism of some type, who is responsible for the repairs? **Randall** the city is financially responsible. **Cox** I've watched, studied, and learned about what this technology does, I have some concerns and I think if we go down this path, we need guardrails. We need immediate termination of any officer that abuses it. I think if there's any outside entity that requests any data from our database, that must be disclosed publicly. The internet can be a tool, or it can be a weapon. Our cell phones can be a tool, or it can be a weapon. Almost every technology out there can be a tool, or it can be a weapon. And it depends on the integrity of the people using it. I honestly think this can be a huge tool if we have the proper guardrails and good people. Not every police officer is a good one, right? But most of them are, and we get a bad rap for the few bad ones. Human errors will occur with or without Flock. I'm maybe one of the most conservative members, I respect property rights and I respect the Constitution. 30 judges have determined that there's no reasonable expectation for privacy in the public domain. This system isn't going into your home. It doesn't follow you home. It does track patterns, and that's a concern. That's why we need the guardrails for the rogue ones. If we banned any technology that had been abused, we wouldn't have any technology at all. The cameras in Beaver Canyon gave early warnings of the flash flood and they saved lives. Are we not going to use that technology to help people? I'm willing to take a risk that this is a tool as opposed to a weapon. And once it becomes a weapon, I'll be the first one with the pitchfork and the torch. If we decide not to have this, and the surrounding cities up and down the I-15 corridor do. All the drug deals and illegal activity will happen here. It's shown that they're seeking smaller communities that don't have this technology. I love this community and I would not want to do anything that would harm its citizens. The misuse that everyone is concerned about has not happened here. **Darin** correct. We train, we watch carefully, we audit, it's a topic of conversation amongst the officers all the time. They know how I feel. They know if they misuse it, it's trouble. We are on top of that and we will continue to be on top of it. **Schmidt** Flock cameras are legal to use across the United States, but their deployment remains a subject of intense legal and privacy debate. Courts have generally ruled that there is no reasonable expectation of privacy on public roadways, making the use of automated license plate readers legal on public streets. While inherently legal, their use is heavily governed by state and local regulations. And I hope that the public here can see that the council is taking that stance very seriously, that our chief is taking that very seriously and we're trying to put the regulations and the procedures in place so that this stays a positive tool and it does not get out of hand. **Galan** we all have a desire to mitigate the suffering that goes on in some of these circumstances, all of us are united in that. And if this tool will help us to mitigate it, then we're going to go for it. **Mayor Nelson** we have taken the time to evaluate every aspect, every document, every video, every hacker's warning. I want to make sure we have guardrails in place right off the bat. I have concerns as the public has concerns. I do feel like the way we're using this technology has a ton of value and I can see the positive outcomes of it when we use the information in the right way. My recommendation is that we come up with specific policy guidelines with strict accountability and auditing. We might not have those parameters tonight; I hope that the motion includes a policy on the use of this technology. Maybe Flock is not the best technology out there, maybe we find a different system in the future. We can look for a different option with better software. **Wilkey** we represent 42,000 people in this community. I've tried to do my due diligence as best I can, there are people in support of this technology, and there are people firmly against it. I would like to see what other options exist. Are there better companies that we can work with. There are benefits to being part of a bigger system, there can be dangers as well. I would be in favor of looking to see if there is a way to keep things more in-house. I have five young children at home, all under the age of 9 years old. And if something were to happen to one

of my kids, and this system could be used to save them or any other child, there's no price that you could put on that. Are there things that scare me about it? Yes. Does big brother scare me? Yes. At the end of the day, we must decide if the known good, outweighs the potential bad.

Councilmember Phillips moved to approve the contract renewal, with the understanding that this is a renewal that'll come back to the council for all future renewals. If there are any infractions or changes, we will exercise our right to terminate the contract within 30 days written notice. We will add guidelines for additional auditing procedures to be fully transparent and brought to this council body on a regular basis, and we will adopt a zero-tolerance policy clearly defining what happens with a violation; seconded by Councilmember Schmidt; vote as follows:

R. Scott Phillips -	aye
Robert Cox -	aye
Carter Wilkey -	aye
Phil Schmidt -	aye
Waldo Galan -	aye

(6) CONSIDER A RESOLUTION TO APPROVE A REPLACEMENT BOARD MEMBER FOR THE TRAILS AT SHURTZ CANYON PID. J TYLER KING/RANDALL MCUNE
Randall no changes from what was previously presented.

Councilmember Wilkey moved to approve the resolution; seconded by Councilmember Schmidt; vote as follows:
AYE:___5_____
NAY:___0_____
ABSTAINED: __0_

(7) CONSIDER A RESOLUTION APPROVING THE HERITAGE CENTER FEES AND CONTRACTS. JASON CLARK/RANDALL MCUNE: **Jason Clark** See Exhibit "D". We have put together a proposal that covers the concerns that were expressed at the last meeting. We want to make sure that we are responsive to council and the administration's desires to narrow that gap between revenue and expenditure. We started off by making the rates for Festival Hall more competitive. We looked at what it costs to utilize our facility versus other facilities on a per-seat basis, and we have increased the rate per your request. We eliminated the discount for rehearsals on Fridays and Saturdays as requested. We will preserve those primarily for performances. We can accommodate rehearsals on those dates if needed. **Wilkey** the proof will be in the pudding. We can evaluate these changes next budget year. This is a community theater, this will affect some people to the point where they may not be able to use our theater, hopefully that doesn't happen too much. **Galan** I think we are much closer to where we need to be, our next priority needs to be marketing within Cedar City and outside of Cedar City. **Jason** now that we have finalized pricing, we will begin marketing efforts.

Councilmember Schmidt moved to approve the Resolution approving Heritage Center fees as outlined; seconded by Councilmember Galan; vote as follows:
AYE:____5_____
NAY:_____0_____
ABSTAINED: ___0__

Public Comment

Scotty Harville the Pioneer Day event is tomorrow the 23rd, the gates open at 7 p.m. The American Legion and the Triple Duces are putting on the color guard and honor guard to pay tribute to Lieutenant Tyler James Feehan who recently passed away. **Galan** I want to thank you again and your colleagues. The way that you presented the colors at the Catholic Church, it literally brought tears to my eyes. You guys are so reverent and just wonderful. Keep it up we really appreciate and respect you for what you do. **Scotty** It's an honor. We're expanding our programs and getting more services out there and working with all the veterans' organizations to bring services to our veterans, our families, and our community because that's what it's about. We're all one and the same. We all raised our hand to defend the Constitution and this country.

James Lee you guys swore to the Constitution when you took office. Do you believe in it? **Wilkey** yes. **James** What is it called when you have a whole bunch of fish together? **Phillips** A school. **James** What about a grouping of snakes? A den. What about a bunch of sheep. A flock. That's Flock cameras. I'm not no damn sheep. I didn't even know they had these things here. But license plate reader. Why do we need police. Them Flock cameras don't help nobody except the cops. These Flock cameras, I think they ought to be in every one of your offices so every one of us can tune in and see what you're talking about. I'm against them all the way!

ADJOURN: Councilmember Phillips moved to adjourn at 6:54 p.m.; second by Councilmember Schmidt; vote unanimous.

EVENTS

Strategy for Continued Success

Event Team Growth:
- Understaffed for size of events
- Focus on Sponsorships and Fundraising
- Increase capacity of operations staff
- Growth and use of TRT

Increase In Department Capital:
- Own equipment rather than rent, such as a Box Truck.

More Structured City Department Collaboration:
- Strengthen and formalize the multi-department processes and communication

11

EVENTS

Success & Growth

The table below shows stats for Calendar Year 2025.

So far in 2026 we have held the Spring Fiesta, which gathered more than 3,800 visitors. This is a 19% increase from 2025, with 700 out-of-towners that constituted 18% of the total visitors.

Data from the several America 250 events are still being collected.

Event	2023 Total/Out of town	2024 Total/Out of town	2025 Total/Out of town	Total growth from 2023-2025 (%)
Spring Fiesta	2,100/327 (15%)	2,500/492 (20%)	3,200/700 (22%)	52%
Moonwalk 5K	282/31	300/90	500/162	90%
Half Marathon & 5K	739/485	829/481	1,104/684	49%
Downtown Lighting	7,000/2,200	9,600/3,000	12,800/4,200	83%
Total Attendees	10,101	13,229	17,804	74%

CEDAR CITY

2025

WATER REPORT

To The Honorable Mayor

Steve Nelson

and

The City Council of Cedar City, Utah

Transmitted herewith is the City Engineer's Report on the water used by Cedar City for the year 2025

2025 CEDAR CITY WATER REPORT

I. INTRODUCTION

The annual report of the water use and system information for Cedar City, Utah is herewith submitted to all concerned. The information included in this report is an accurate record of water usage and system information for the calendar year of 2025. Also included in this report are water usage and system information trends for previous years.

II. SYSTEM INFORMATION & TRENDS

The present water system serves a population of approximately 42,837 people, covering an area of 23,482 acres or 36.69 square miles. The water system (culinary water and pressurized irrigation) has a maximum supply capacity of 19,228,400 gallons per day (GPD) with 18,000,000 GPD to be supplied from wells and 1,228,400 GPD from springs. On years where surface water is available to the 200 North Pump Station, the pressurized irrigation system may be augmented with up to 2,592,000 GPD.

Of the total supply capacity, 13,324,400 GPD is for culinary water and 5,904,000 GPD is for pressurized irrigation water. No water that is delivered to a property in an irrigation ditch is included in this capacity. The water system's storage is composed of eleven (11) storage tanks with a capacity of 18,690,537 gallons for culinary water, the Lake at the Hills with a capacity of 32,246,000 gallons for irrigation water, and one pond at the golf course with a capacity of 2,914,100 gallons for irrigation water. The water system has a total of 279.4 miles of pipelines that includes 62.4 miles of transmission lines located out of the City limits, 208.2 miles of pipelines located inside the City limits, and 8.8 miles of irrigation lines.

2025 CEDAR CITY WATER REPORT

SYSTEM INFORMATION TRENDS

Year	Population[1]	Area Served (Sq. Mi.)	Peak Supply Capacity			Storage	
			Total (GPD)	Culinary (GPD)	Irrigation (GPD)	Culinary (Gal.)	Irrigation (Gal.)
2016	30,184	36.04	20,088,000	14,184,000	5,904,000	19,602,284	33,246,000
2017	31,223	36.01	20,088,000	14,184,000	5,904,000	19,602,284	33,246,000
2018	31,806	36.034	20,088,000	14,184,000	5,904,000	19,602,284	33,246,000
2019	33,055	36.048	21,960,000	16,056,000[2]	5,904,000	19,602,284	33,246,000
2020	35,078[3]	36.11	21,960,000	16,056,000	5,904,000	19,602,284	35,160,100[4]
2021	37,206[5]	36.27	19,228,400[6]	15,912,000	5,904,000	18,690,537[7]	35,160,100
2022	38,505[8]	36.34	19,228,400	15,912,000	5,904,000	18,690,537	35,160,100
2023	40,104[9]	36.42	19,228,400	15,912,000	5,904,000	18,690,537	35,160,100
2024	40,885[9]	36.49	19,228,400	15,912,000	5,904,000	18,690,537	35,160,100
2025	42,837[8]	36.69	19,228,400	15,912,000	5,904,000	18,690,537	35,160,100

PIPELINES

Year	Total Miles	Transmission Lines (miles)	Lines in City limits (miles)	Irrigation Lines (miles)
2016	238.9	61.7	168.4	8.8
2017	240.8	61.7	170.3	8.8
2018	242.2	61.7	171.7	8.8
2019	246.9	61.7	176.5	8.8
2020	249.7	61.7	179.2	8.8
2021	253.0	62.4	181.8	8.8
2022	261.6	62.4	190.1	8.8
2023	266.7	62.4	195.5	8.8
2024	275.0	62.4	203.8	8.8
2025	279.4	62.4	208.2	8.8

1 - Population prior to 2010 is based on estimates from the Utah Governor's Office of Planning and Budget (GOPB). Population for 2010 is based on the official count taken by the U.S. Census Bureau during the 2010 census. Population for 2011 and 2012 was estimated based on Census data for Iron County. Population starting in 2013 is based on the population for Cedar City listed in the Utah Sales Tax Distribution report for December of each year.

2 - The increase in culinary capacity for 2019 is due to Quichapa Well #1 being put back into service; also, the capacity for Enoch Well #1 was increased based on 2019 flow meter data.

3 - Population for 2020 has been corrected to reflect the U.S. Census Bureau statistics.

4 - The increase in irrigation storage in 2020 is due to the new pond at the Golf Course.

5 - Population for 2021 is as reported by the U.S. Census Bureau.

6 - Reflects lower amount being produced by springs.

7 - A previous reporting error for storage capacity was revealed while verifying Cedar City Water Storage Tanks. The Redman Tank was previously evaluated at 1,928,325 gal. storage capacity was found to provide 1,016,578-gals (911,747-gals reduction). The amount reported for 2021 reflects this correction.

8 - Population for 2022 and 2025 are estimated from Kem C. Gardner Policy Institute. The 2025 population is the average of Census Bureau (41,871) and Kem C. Gardner Utah Population Committee (43,803).

9 -Population for 2023 and 2024 are from the U.S. Census Bureau Annual Estimates of the Resident Population for Incorporated Places of 20,000 or More.

III. WATER RIGHTS INFORMATION & TRENDS

At the end of 2025 the City owned 25,485.74 acre-feet (A.F.) of total water rights including 17,135.98 A.F. of underground water rights, 4,838.75 A.F. of spring water rights, and 3,511.01 A.F. of surface water rights. In 2025, the City acquired 73.22 A.F. of water rights including 65.59 A.F. of underground water rights, -0- A.F. of spring water rights, and 7.63 A.F. of surface water rights. Appendix B lists the water rights currently owned by Cedar City, as adjudicated by the State Engineer.

WATER RIGHTS TRENDS

Year	Ground Water (A.F.)	Surface Water (A.F.)	Springs (A.F.)	Total (A.F.)	40-year Outlook (A.F.)[1]	40-year Outlook Population
2016	13,682.60	1,424.37	4,847.76	19,954.73	19,586	74,386
2017	13,683.40	1,455.33	4,847.76	19,986.49	19,518	75,761
2018	13,750.87	1,490.11	4,847.76	20,088.74	20,650	77,136
2019	13,762.67	1,530.971	4,848.70	20,142.34	19,315	78,529
2020	14,010.87	1,521.590	4,848.70	20,381.16	22,421	79,887
2021	14,078.02	1,793.940	4,848.70	20,720.66	14,055	61,506[2]
2022	14,224.58	1,807.674	4,848.70	20,880.95	12,863	62,409
2023	16,162.20	3,480.60	4,838.75	24,481.55	12,836	63,312
2024	16,863.72	3,498.34	4,838.75	25,200.81	14,386	64,215
2025	17,135.98	3,511.01	4,838.75	25,485.74	15,809	77,122[3]

Summary of water rights as of **July 20, 2026**:

Total number of acre-feet in Cedar City's water rights portfolio = 25,551.33 acre-feet

1. Basin 73 Underground water rights Pre-1934 (prior to July 25, 1934) = 4,497.76 acre-feet
2. Basin 73 Underground water rights Post-1934 (July 25, 1934 or later) = 11,701.09 ac-ft
3. Basin 71 Beryl-Enterprise basin underground rights (safe yield) = 1,002.72 acre-feet
4. Springs water rights = 4,838.75 acre-feet
5. Surface water rights = 448.60 acre-feet
6. Irrigation shares = 3,062.41 acre-feet (1,632.76 shares in irrigation companies)

1- 40-year outlook population and water rights is based on population projection data and the current year's daily water use per person.

2- The 40-year outlook population was revised down based on population projections from the Kem C. Gardner Policy Institute.

3- The 40-year outlook population was calculated based on recent population projections from Kem C. Gardner.

IV. WATER USAGE INFORMATION & TRENDS

In 2025 the City delivered a total of 8,795 A.F. of culinary water and pressurized irrigation water, including 7,962 A.F. of well water, 833 A.F. of spring water, and 0 A.F. of surface water. The City purchased 48.7 A.F. of water from the Central Iron County Water Conservancy District (C.I.C.W.C.D.) The City's culinary water system served 10,344 connections and delivered 7,986 A.F. of water, including 7,153 A.F. of well water and 833 A.F. of spring water.

The City's pressurized irrigation system delivered 809 A.F. of water. The pressurized irrigation system was supplemented with 0.0 acre-feet of culinary water that was delivered to the Lake at the Hills. The pressurized irrigation system was used for irrigating the Cedar Ridge Golf Course, Cedar High School, Canyon View schools, Bicentennial Park and Soccer Field, the Cemetery, and Southern Utah University.

The average daily culinary and irrigation use per person per day was 183 gallons. July was the peak culinary usage month with 1,211.0 A.F. of water. August 5, 2025, was the peak culinary usage day with 49.0 A.F. of water. March 21, 2025, was the minimum culinary usage day with 5.4 A.F. of water.

The City and the Central Iron County Water Conservancy District (CICWCD) recharge water from Coal Creek during the winter months into recharge ponds near the airport and at Quichapa. The amount of recharge in 2026 was 1,315 A.F. of water.

WATER USAGE TRENDS

Year	Population	Connections	Total Water Usage		Type of Water (AF)		Culinary used in Pressurized Irrigation (AF)	Water Source (AF)			Per Capita (GPD)
			Gallons	AF	Culin.	Irrig.		Ground water	Springs	Surface water	
2016	30,184	8,801	2,589,421,400	7,947	7,257	690	7.7	6,304	1,638	5	234
2017	31,223	8,985	2,619,740,610	8,040	7,345	695	3.9	6,532	1,508	0	230
2018	31,806	9,226	2,771,126,900	8,504	7,744	760	3.2	7,174	1,330	0	239
2019	33,055	9,404	2,649,903,800	8,132	7,455	677	4.1	6,418	1,714	0	220

COAL CREEK RECHARGE

Year	Recharge using excess water from Coal Creek (ac-ft)
2017	420±
2018	448
2019	9,058
2020	2,200
2021	423
2022	1,449
2023	5,921
2024	2,835
2025	1,315[1]

1 - Data for 2025 was obtained from the Central Iron County Water Conservancy District (www.cicwcd.org/flow-map). Recharge breakdown is as follows for 2025: Schmidt pit = 376.5 AF; Horse Alley pit = 456.9 AF; Western Rock pit = 103.1 AF; Quichapa pit (north of SR-56) = 378.7 AF.

V. PUMPING COSTS INFORMATION AND TRENDS

Total power costs for Cedar City's Water Wells in 2025 were **$1,078,439**. The average cost to pump 1,000 gallons of water was **$0.418**. The average cost per kilowatt-hour (kWh) was **$0.092.** Enoch Well #3 was the most efficient source with an average pumping cost of $0.26 per 1,000 gallons and Enoch Well #1 was the least efficient source with an average pumping cost of $0.51 per 1,000 gallons. Quichapa Well #1 was the least cost source per kWh at $0.08 per kWh and Enoch Well #1 was the highest cost source per kWh at $0.16 per kWh. The revenue from metered water sales in 2025 was $7,628,244.

PUMPING COST TRENDS

Year	Total Pumping Costs for Wells	Average Pumping Costs (per 1,000 gal.)	Average Cost per kWh	Lowest Cost Sources		Highest Cost Sources	
				Cost/ 1,000 Gal.	Cost/kWh	Cost/ 1,000 Gal.	Cost/kWh
2016	$678,278	$0.33	$0.078	$0.19	$0.07	$0.47	$0.10
				Cemetery	Q Well #5	Q Well #6	Northfield
2017	$668,058.50	$0.31	$0.075	$0.21	$0.07	$0.49	$0.09
				Enoch #3	Q Well #8	Q Well #6	Northfield & Enoch #1
2018	$695,834	$0.30	$0.070	$0.18	$0.07	$0.44	$0.09
				Enoch #3	Q Well #5	Q Well #6	Enoch #1
2019	$647,442	$0.28	$0.086	$0.177	$0.066	$0.41	$0.11
				Enoch #3	Q Well #5	Q Well #6	Enoch #1
2020	$818,670	$0.26	$0.086	$0.200	$0.063	$0.43	$0.18
				Enoch #3	Q Well #1	Q Well #6	200 N Pump
2021	$763,106	$0.32	$0.070	$0.212	$0.065	$0.42	$0.087
				Cemetery	Q Well #1 & #7	Q Well #5	Q Well #3
2022	$778,782	$0.34	$0.068	$0.22	$0.063	$0.50	$0.083
				Enoch #3	Q Well #8	Q Well #5	Northfield
2023	$771,398	$0.355	$0.076	$0.12	$0.068	$0.47	$0.096
				Q Well #7	Q Well #5	Enoch #1	Northfield
2024	$967,630	$0.365	$0.080	$0.14	$0.06	$0.56	$0.12
				Q Well #3	Q Well #1	Q Well #5	Enoch #1
2025	$1,078,439	$0.418	$0.092	$0.26	$0.08	$0.51	$0.16
				Enoch #3	Q Well #1	Enoch #1	Enoch #1

METERED WATER REVENUE

Calendar Year	Metered Water Sales
2016	$4,156,131
2017	$4,223,869
2018	$4,395,966
2019	$4,343,018
2020	$4,952,627
2021	$4,561,585
2022	$4,342,998
2023	$5,619,163
2024	$6,989,793
2025	$7,628,244

VI. WATER QUALITY INFORMATION AND TRENDS

Water quality for the Cedar City Culinary Water System was well within the standards of the Utah Drinking Water Regulations for all water supplied to the system. The weighted average for Total Dissolved Solids (TDS) and Nitrates was **288.0** and **0.33 mg/L** respectively. Nitrate data will be collected every year for public information.

WATER QUALITY TRENDS

Year	Average TDS (mg/L)	Average Nitrates (mg/L)
2016	184.7	0.60
2017	No Data	0.46
2018	No Data	0.36
2019	208.0	0.40
2020	No Data	0.50
2021	No Data	0.48
2022	173.3	0.35
2023	--	--
2024	266.0	0.42
2025	288.0	0.33

VII. UNACCOUNTED-FOR WATER INFORMATION AND TRENDS

During the past year, **7.9% of the culinary water produced by the City was unaccounted-for.** Unaccounted-for water includes the following un-metered water uses: leakage, firefighting, main flushing, misread meters, un-metered connections, inaccurate meters and City usage. Based on an evaluation of tank level readings, **7.1% of the culinary water produced was lost due to leakage.** The annual average amount of leakage from the Lake at the Hills in 2025 was 2,984 gal/hour.

UNACCOUNTED-FOR WATER TRENDS

Year	Culinary Water Unaccounted %	Culinary Water Leakage %	The Lake at the Hills Annual Average Leakage (gal/hour)
2016	12.4	5.0	1,833
2017	5.4	3.5	282
2018	5.3	4.4	0
2019	11.1	10.2	0
2020	9.4	4.7	0
2021	10.5	9.2	0
2022	8.5	3.6	0
2023	--	--	--
2024	9.1	6.4	0
2025	7.9	7.1	2,984
10-year average	8.8%	6.1%	510

VIII. AQUIFER TRENDS

The following table and charts provide information concerning trends in the Cedar Valley aquifer, including snowpack, static water level in the aquifer, and City water use.

CEDAR VALLEY AQUIFER TRENDS

Year	Total City Water Use[1] (acre-feet)	Peak Snow Water Equivalent (SWE)* at Webster Flat[2]	Date	Water Level in aquifer in Quichapa area[3] (feet below land surface)	Water Level in aquifer in Enoch area[4] (feet below land surface)
2016	7,947	13.4	24-Feb	104.25	71.70
2017	8,040	21.7	9-Mar	107.65	74.67
2018	8,504	13.2	17-Mar	111.76	74.49
2019	8,132	26.7	23-Mar	114.63	79.17
2020	9,757	19.7	1-Apr	115.03	77.00
2021	8,343	10.3	29-Mar	119.25	81.65
2022	7,955	11.6	22-Mar	123.69	85.09
2023	8,133	35.5	8-Apr	123.94	87.90
2024	9,142	17.5	9-Apr	124.43	86.75
2025	8,793	9.1	7-Mar	127.90	89.6

[1]- This column lists the total City water use for the calendar year. This information tracks the effect of the City's usage on the aquifer levels.

[2]- This data may be obtained from:
https://wcc.sc.egov.usda.gov/nwcc/site?sitenum=853

[3]- This column lists the measured water level in a USGS monitoring well on the west side of Quichapa Lake that is located at approximately 3200 South 8100 West. The depth in the monitoring well is measured in March of each year by the USGS. The water level data is taken from USGS monitoring well 373742113100801 (C-36-12)35adc- 1. https://nwis.waterdata.usgs.gov/nwis/gwlevels?site_no=373742113100801&agency_cd=USGS&format=html)
*NOTE: First recorded depth of well listed is for the year 1977 - well depth was 75.16'

[4]- This column lists the measured water level in a USGS monitoring well in Enoch that is located at approximately 1000 East Midvalley Road. The depth in the monitoring well is measured by the USGS. The water level data is taken from USGS monitoring well 374554113020801 (C-35-11)12dcd-1. (https://nwis.waterdata.usgs.gov/nwis/gwlevels?site_no=374554113020801&agency_cd=USGS&format=html)
*NOTE: First recorded depth of well listed is for the year 1973 - well depth was 33.67'

IX. WATER RATES

A. Fixed Charge.
There is a fixed charge each time a bill is rendered as follows:
Monthly Fixed Charge. $17.00

B. Quantity Charge for Culinary Water Use.
In addition to the fixed charge, there is a charge for all culinary water used for each 1,000 gallons as follows:

Single-family Residential (Monthly per Account)

Block 1	First 8,000 gallons or any part thereof	$1.00
Block 2	8,001 to 20,000 gallons or any part thereof	$2.52
Block 3	20,001 to 35,000 gallons or any part thereof	$5.06
Block 4	Over 35,000 gallons	$5.56

Multi-family Residential (Monthly Per Occupied Dwelling Unit)

Block 1	First 5,000 gallons or any part thereof	$1.00
Block 2	5,001 to 10,000 gallons or any part thereof	$2.52
Block 3	10,001 to 15,000 gallons	$5.06
Block 4	Over 15,000 gallons	$5.56

Non-residential (Monthly Per Account)

- First 20,000 gallons $1.00
- 20,001 to 50,000 gallons $3.05
- Over 50,000 gallons $4.56

C. Conservation Rates.
Monthly Fixed/Base Charge: $17.00

Residential Conservation Rate

- First 8,000 gallons (per occupied dwelling unit) $1.00
- 8,001 to 12,000 gallons (per occupied dwelling unit) $2.93
- 12,001 to 20,0000 gallons (per occupied dwelling unit) $6.08
- Over 20,000 gallons (per occupied dwelling unit) $6.58

Commercial, Industrial, and Multifamily Conservation Rate

- First 2,000 gallons (per usage unit) $1.00
- 2,001 to 3,000 gallons (per usage unit) $1.50
- 3,001 to 4,0000 gallons (per usage unit) $12.73
- Over 4,000 gallons (per usage unit) $13.23

D. Quantity Charge for Pressurized Irrigation Water Use.

In addition to the fixed charge, there is a monthly charge for all pressurized irrigation water used for each 1,000 gallons as follows:

All Usage	$0.68
Excess Irrigation Usage*	$1.36

*Applies to All Large Irrigation Users as defined.

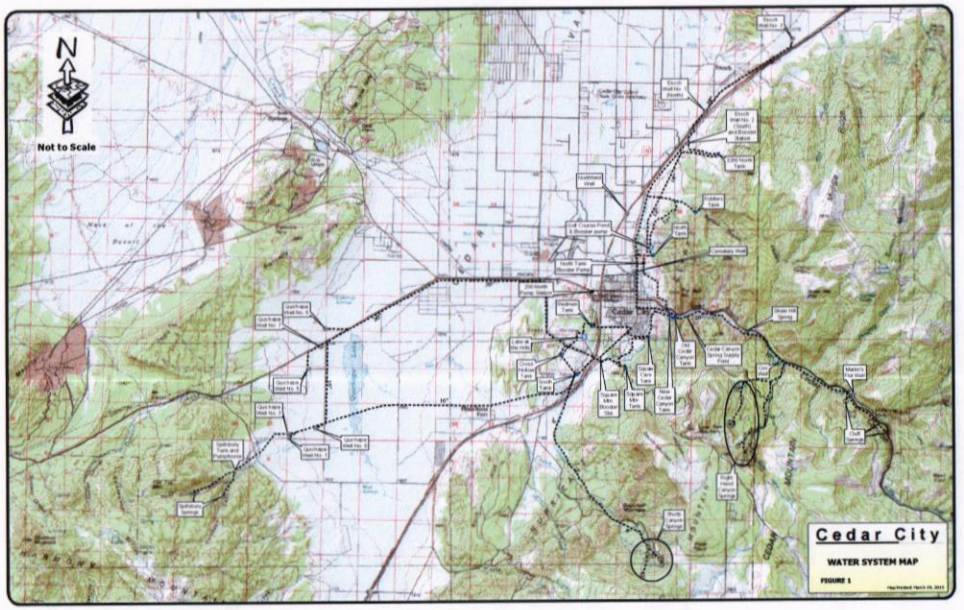
X. OTHER

Design and Construction for many of the necessary upgrades and maintenance of Cedar City's Water System were considered, scheduled, designed and constructed. Among projects that were started or completed in 2025 are:

- BLM North Production well
- Test Wells Project – several test wells
- Water Rights Assessment
- Master Plan Study for Cedar Canyon
- Chlorination system at Cross Hollows Tank
- Waterline improvements on Industrial Road
- Water meters changed out to Neptune meters

2025 CEDAR CITY WATER REPORT

XI. SYSTEM MAP



APPENDIX A

SYSTEM INFORMATION

CULINARY SUPPLY DATA

WELL	DEPTH (FT)	CASING DIAMETER (INCHES)	DDW SOURCE CAPACITY[1] (GPM)	MAXIMUM CAPACITY FOR CONSUMPTION[2] (GPM)
Enoch Well #1	875	16	1300	1000

Total	**18,690,537**						

IRRIGATION RESERVOIR DATA

Reservoir	Storage Volume (gal.)	Base Elevation (ft)	Overflow Elevation (ft)
The Lake at the Hills	32,246,000	5994	6010
Golf Course Pond	2,914,100	5856	5871
Total =	**35,160,100**		

Total Storage = <u>53,850,637 gallons</u>

WATER CONNECTIONS FOR CEDAR CITY

Year	Total Connections	% Change
2016	8,801	1.59
2017	8,985	2.09
2018	9,226	2.68
2019	9,404	1.93
2020	9,562	1.68
2021	9,214*	
2022	9,778	6.12
2023	9,986	2.13
2024	10,078	0.92
2025	10,344	2.64

* - reflects a change in system reporting procedures. A reduction in connections did not occur, rather inactive and replaced connections were removed from the report.

2025 CULINARY WATER AVERAGE DEMAND
(2025 Population = 42,837)

Month	Culinary Water (per person/month)	
	AF	Gallons
January	0.008	2,659
February	0.008	2,645
March	0.009	2,924

APPENDIX F

THE LAKE AT THE HILLS
MASS BALANCE SHEETS

LEIGH HILL RESERVOIR
MASS BALANCE LOG SHEET

Dam #UT53394

Cedar City, Utah

Month: January

Year: 2025

Name of Operator(s): Chance

Name of Engineer:

PROCEDURE:

1. Prior to scheduling the mass balance procedure, check the weather forecast to make sure that there is no potential for rain or snow in the forecast.
2. Notify all customers on the pressurized irrigation system at least 24 hours before the study begins.
3. Perform the study during the nighttime hours from approximately 10:00 PM to 6:00 AM.
4. Turn off all pumps and wells that feed into the pressurized irrigation system.
5. If it is open, close the valve on the culinary water system.
6. Close the butterfly valve in the observation box to prevent any water from coming in or going out of the reservoir.
7. Record the water surface elevation at the beginning of the study period. (The SCADA system should also be monitoring the water levels.)
8. Record the water surface elevation at the end of the study period. (The SCADA system should also be monitoring the water levels.)
9. At the end of the study period, the valves can be re-opened and the pumps can be turned on again.
10. Provide a copy of this completed log sheet to the City Engineer.
11. The City Engineering Department will determine the volume of water loss during the study period based on the amount of drawdown.
12. The City Engineering Department shall keep a storage-elevation curve for the Leigh Hill Reservoir on file to be used in calculating the volume of water loss
13. The City Engineering Department will send a copy of the mass balance study results to the State Engineer (Dam Safety).
14. If the volume of water loss exceeds the threshold stated in the SOP, then remedial actions will be taken based on direction from the State Engineer.

Record information in the following table:

WSE = Water Surface Elevation in Reservoir (read to the nearest t

Start Date	1-14-25	Start Time	23:00	Start WSE	6009.286
End Date	1-15-25	End Time	9:00	End WSE	6009.286

NOTE: Return this sheet to the City Engineering Department after the results are recorded.

The following table is to be completed by the Cedar City Engineering Department:

Elevation difference		feet	Elev Difference = Start WSE - End WSE
Storage volume at Start WSE		gallons	Refer to the storage-elevation curve.
Storage volume at End WSE		gallons	Refer to the storage-elevation curve.
Volume of water lost		gallons	Water loss = Start WSE volume - End WSE volume
Time elapsed during test period		hours	
Water loss per hour	0	gal/hour	Water loss per hour = Total volume/Time elapsed
Allowable Leakage Rate (ALR)	6,188	gal/hour	
Is water loss less than ALR?	Yes	yes or no?	If no, then contact the State Engineer.

NOTE: A copy of this completed sheet should be kept for inclusion in the City's Annual Water Report.

LEIGH HILL RESERVOIR
MASS BALANCE LOG SHEET

Dam #UT53394

Cedar City, Utah

Month: February

Year: 2025

4. Turn off all pumps and wells that feed into the pressurized irrigation system.
5. If it is open, close the valve on the culinary water system.
6. Close the butterfly valve in the observation box to prevent any water from coming in or going out of the reservoir.
7. Record the water surface elevation at the beginning of the study period. (The SCADA system should also be monitoring the water levels.)
8. At the end of the study period, the valves can be re-opened and the pumps can be turned on again.
9. Provide a copy of this completed log sheet to the City Engineer.
10. The City Engineering Department will determine the volume of water loss during the study period based on the amount of drawdown.
11. The City Engineering Department shall keep a storage-elevation curve for the Leigh Hill Reservoir on file to be used in calculating the volume of water loss.
12. The City Engineering Department will send a copy of the mass balance study results to the State Engineer (Dam Safety).
13. If the volume of water loss exceeds the threshold stated in the SOP, then remedial actions will be taken based on direction from the State Engineer.

Record information in the following table:

WSE = Water Surface Elevation in Reservoir (read to the nearest 0

Start Date	10-5-25	Start Time	7:30	Start WSE	6006.840
End Date	10-5-25	End Time	15:30	End WSE	6006.740

NOTE: Return this sheet to the City Engineering Department after the results are recorded.

The following table is to be completed by the Cedar City Engineering Department:

Elevation difference	0.1	feet	Elev Difference = Start WSE - End WSE
Storage volume at Start WSE	22,823,807	gallons	Refer to the storage-elevation curve.
Storage volume at End WSE	22,537,384	gallons	Refer to the storage-elevation curve.
Volume of water lost	286,423	gallons	Water loss = Start WSE volume - End WSE volume
Time elapsed during test period	8	hours	
Water loss per hour	35,803	gal/hour	Water loss per hour = Total volume/Time elapsed
Allowable Leakage Rate (ALR)	6,188	gal/hour	
Is water loss less than ALR?	No	yes or no?	If no, then contact the State Engineer.

NOTE: A copy of this completed sheet should be kept for inclusion in the City's Annual Water Report.

LEIGH HILL RESERVOIR
MASS BALANCE LOG SHEET

Dam #UT53394

Cedar City, Utah

Month: November Year: 2025

Name of Operator(s):

Name of Engineer:

PROCEDURE:

1. Prior to scheduling the mass balance procedure, check the weather forecast to make sure that there is no potential for rain or snow in the forecast.
2. Notify all customers on the pressurized irrigation system at least 24 hours before the study begins.
3. Perform the study during the nighttime hours from approximately 10:00 PM to 6:00 AM.
4. Turn off all pumps and wells that feed into the pressurized irrigation system.
5. If it is open, close the valve on the culinary water system.
6. Close the butterfly valve in the observation box to prevent any water from coming in or going out of the reservoir.
7. Record the water surface elevation at the beginning of the study period. (The SCADA system should also be monitoring the water levels.)
8. Record the water surface elevation at the end of the study period. (The SCADA system should also be monitoring the water levels.)
9. At the end of the study period, the valves can be re-opened and the pumps can be turned on again.
10. Provide a copy of this completed log sheet to the City Engineer.
11. The City Engineering Department will determine the volume of water loss during the study period based on the amount of drawdown.
12. The City Engineering Department shall keep a storage-elevation curve for the Leigh Hill Reservoir on file to be used in calculating the volume of water lo
13. The City Engineering Department will send a copy of the mass balance study results to the State Engineer (Dam Safety).
14. If the volume of water loss exceeds the threshold stated in the SOP, then remedial actions will be taken based on direction from the State Engineer.

Record information in the following table:

WSE = Water Surface Elevation in Reservoir (read to the nearest t

Start Date	11-2-25	Start Time	0700	Start WSE	6009.654
End Date	11-2-25	End Time	1500	End WSE	6009.654

NOTE: Return this sheet to the City Engineering Department after the results are recorded.

The following table is to be completed by the Cedar City Engineering Department:

Elevation difference		feet	Elev Difference = Start WSE - End WSE
Storage volume at Start WSE		gallons	Refer to the storage-elevation curve.
Storage volume at End WSE		gallons	Refer to the storage-elevation curve.
Volume of water lost		gallons	Water loss = Start WSE volume - End WSE volume
Time elapsed during test period		hours	
Water loss per hour	0	gal/hour	Water loss per hour = Total volume/Time elapsed
Allowable Leakage Rate (ALR)	6,188	gal/hour	
Is water loss less than ALR?	Yes	yes or no?	If no, then contact the State Engineer.

NOTE: A copy of this completed sheet should be kept for inclusion in the City's Annual Water Report.

Flock Cases

1. 03/24/2025 – Business Burglary Arrest – Cleared two other business burglaries. (Tropical Smoothie, IHOP, and Pawn Plus)
    a. Would have taken numerous hours for detectives to investigate without Flock (The Cost would have been exponential)
    b. Conservatively, $10,000 in manhours to solve.
    c. $6,200 impact on Tropical Smoothie – Returned $3,000 from safe to owner.
    d. 2 rifles recovered from Pawn Plus Burglary. Multiple items of value stolen, valuing approximately $5,000.
    e. $2,500 impact on IHOP restaurant.
    f. Total financial impact of $24,000.
2. 03/30/2025 – Felony Warrant Arrest – $1,000 impact on victim
3. 04/01/2025 – Hit and Run Accident Arrest - $500 damage to victim
4. Larceny-Theft – Victim dropped money at Walmart. Suspects picked it up and stole it. $825 returned to victim.
5. 08/20/2025 – Stolen vehicle/pursuit/4 runaway juveniles – arrests ($25,000) Stolen vehicle recovery.
6. 07/15/26 – Stolen Semi Trailer recovery - $10,000 value of trailer.

$62,000 in total measurable costs related to cases. None of these cases would have been solved without Flock cameras.

1

RECOMMENDATION~

- *At the direction of City Council, staff are recommending an increase in rental rates & associated fees*
- *To remain competitive, staff thoroughly reviewed comparable event, theater, & meeting rooms locations fees. Staff believe these increases to be fair and reasonable*
- *This adjustment will ensure long-term financial sustainability of facilities while continuing to serve the community. Staff remains committed to pursuing new business opportunities & will work creatively to attract & accommodate events to benefit both the City and its residents.*
