- **Community Input:**
 - None
- **Culinary Water:**
 - Powell: Installed the new meter for Thomas Klosowski
 - Made a repair on the meter for Jonathan Till
 - Re-installed Davila meter
 - Still working on getting the computer issue solved
- **Unfinished Business:**
 - The insurance has gone up
 - We have 2 payments left on the CBDG loan
- **Water Meter Applications:**
 - Ann McCampbell and Thomas Klosowski applied for a $\frac{3}{4}$ " Meter for 3100.00
 - Hart motions to approve the meter
 - Simpson seconds the motion
 - Passes unanimously
 - Antonio Davila asked how to apply for a meter
- **Meter Report:**
 - Nielson Construction paid for the repairs on the system.
- **Bills to Pay: See Treasures Report**
 - Simpson motions to pay the bills as presented
 - Yearus seconds the motion
 - Passes unanimously
- **Other:** Bushnell will be meeting with Rural Water to finalize the CCR, we will also be taking a water analysis to create a pond for secondary water to make sure that it is good for irrigation.
- There was a group of hydrology students who came to look at the water systems in the area. They tested the water for the age of the aquifer which aged at 50,000 years old. They were also trying to study where the arsenic in the water is coming from because our different town wells test so differently.
- **Next meeting:** July 8th, 2026
- **Meeting adjourned:** 7:30.
