OAM2026-001636

Adoption of the 2026-2027 fee schedule

Planner: Jeff Miller, Planner II

Key Findings:

- Per Utah Code, planning commission is required as part of the land use fee schedule adoption process.

Staff Recommendation:

Recommendation of approval to the Council

Exhibits:

- A. Explanation Memo
- B. Proposed Fee Schedule

PROJECT DESCRIPTION

Each year, the Council adopts a fee schedule for all fees collected by the MSD on behalf of Copperton, including land use, business license, building permit, code enforcement, and engineering fees. Per Utah Code, fees specific to land use applications must be considered by the planning commission for recommendation prior to the Council taking action to adopt the fee schedule. The adoption of the fee schedule is based on the fiscal budget year (July 1 – June 30).

PUBLIC INPUT

Planning Staff has not received any comments from the public as of the completion of this staff report. Any comments that are received will be forwarded to the Planning Commission for review at the public hearing on September 2nd.

ANALYSIS AND RECOMMENDATION

Analysis and Summary:

The only change to the “Land Use” application fee section of the fee schedule is to change “Simple Conditional Use Permit” to “Simple Land Use Permit” in the fee table. This is due to the fact that most of the applicable uses on the list are now either permitted uses or are covered under the “temporary uses” chapter of the code.

Recommendation:

Planning staff recommends that the planning commission forward a recommendation for approval to the Council.

PLANNING COMMISSION OPTIONS:

As a recommending body to the Council, the planning commission has the following options:

1. **Approval:** The planning commission recommends approval of the 2026-2027 land use fee schedule as presented.

2. **Approval with changes:** The planning commission recommends approval of the 2026-2027 land use fee schedule with the following changes:
 - a. ...
3. **Denial:** The planning commission recommends approval of the 2026-2027 land use fee schedule as presented.

Municipal Services District

STAFF REPORT

Date: June 24, 2026

From: Brian Hartsell, Associate General Manager, MSD

RE: Fee Schedule Update

Issue Summary

The MSD administers the County, City and Town fee schedules of its member communities. The fee schedule is reviewed and updated regularly, sometimes annually, then approved by the Council. Often these updates are a result of new legislation that impacts how fees are charged or administered. The core of the fee schedule is common to all entities within the boundaries of the Municipal Services District with customization as desired and approved by each jurisdiction. The commonality where applicable facilitates efficient administration of the schedule.

Last year, after careful review of the land use regulation definition (as provided in 10-9a-103(34)(a)) and upon guidance by the SLCo District Attorney's Office our land use legal team at Smith Hartvigsen, certain fees (such as building permit fees) found in the County, City and Town fee schedules should be considered part of the "land use regulation definition." Therefore, beginning last year fees related to land use were considered by your Planning Commission as provided in 10-9a-302(1)(b) and, after a public hearing at the Planning Commission meeting, a recommendation was brought to City/Town/County council.

Fee Schedule Updates

A few key changes you may have noted in the redline schedule include:

- Updated valuation table used to calculate building permits as provided by the International Code Council (ICC). This is a regular and predictable update to the schedule.
- A change of the re-inspection fee from \$50 to \$100, and the overtime/after-hours inspection fee from \$120 to \$150. These adjustments reflect average actual time, fuel and vehicle costs and to encourage readiness at the initial inspection so that a reinspection or untimely inspection is not even needed.
- Adding "or violating a stop work order" to "building or grading without a permit" as a reason for a fee to be assessed. Also, updating the base fee as requested and clarifying that the 200% reference was to be a double fee, so reworded that section to avoid it being inadvertently

viewed as a triple fee. A very small base fee may not be seen as a deterrent in some cases. Fees are not intended as a revenue generator, but to encourage compliance.

- Clarification that plan check fees apply to up to four reviews prior to building permit issuance. This helps ensure a single fee is being applied to scenarios where updates to plans are not being made and plan checks are occurring at high volume without a fee increase.
- Clarification that plan check fees “small projects” includes residential solar plan checks.
- Change Simple Conditional Use Permit to “Simple Land Use Permit” since many of these uses are now permitted uses rather than conditional uses due to code or state statute updates.
- Removal of Stormwater Pollution Prevention Plans (SWPPP) oversight inspections fee due to legislative and stormwater permit changes.
- Adding parking violation fee updates where applicable
- Clarification of individual vs non-individual special event violations. Reducing individual fee amount to \$1,000 consistent with UCA 10-3-703 and Title 76-3-301(1)(d).
- Update of engineering fees to include excavation permit fee amounts per Title 14 instead of having the fees buried in the code. Also, eliminating some of the calculations based on a percentage of construction costs and changing to set fees to make fees more modest and consistent with other jurisdictions.

Recommendation

Approve the updated Fee Schedule with an effective date of Jul 1, 2026 at the earliest or the date of the meeting approved in if later. The approval should also authorize the ability for MSD Staff to make non-substantive changes to facilitate formatting, grammar and other changes to support publishing the schedule.

Glossary of Terms

Condominium Plat: The procedure to review and record a condominium plat is subject to the Condominium Ownership Act (57.8- Utah Code). Staff review includes addressing all units, a review to verify compliance with the zoning ordinance and conditions of approval previously imposed and an engineering review to verify compliance with platting requirements.

Director: The Director of Planning and Development or designee.

General Plan Amendment: Planning Commissions make a recommendation to the Council who must authorize Amendments to a General Plan. A study that includes public involvement is conducted after Council gives the direction to proceed to the Development Services Director.

Home Daycare I Pre-school Application Fees: Although a home daycare or pre-school may be operated out of a private residence, it is not considered or reviewed in the same manner as a home business. Therefore, they are listed separately in the fee schedule and in the ordinance.

Modification to a Recorded Subdivision Plat: Utah Code requires a specific process be followed to amend, vacate or alter a recorded subdivision plat. This involves application, notice, a public hearing before the planning commission and executive (commonly referred to as a 608 hearing/ Mayor's Meeting). Additionally, an engineering review of the preliminary and final plat prior to approval and recording is required. Fees may include Planning Commission Review, Additional Public Body Review, Technical Review.

MSD: Means the Greater Salt Lake Municipal Services District, which the Town of Copperton has contracted with to provide planning and zoning, building permit, business license, and code enforcement services

PUD (Planned Unit Development): In those zones which allow development of a PUD they are listed as a Conditional Use, which requires review by the Planning Commission. For developers who intend to sell individual lots within the PUD both the Planning Commission Review, Conditional Use and a Subdivision Preliminary Plat review would be required, and a Technical Review prior to final approval is also required. Per the fee schedule each of these reviews requires separate fee.

Additionally, because more than one review process is required the application would also involve an Agency Review Meeting. Fees may include: Agency Coordination Meeting, Planning Commission Review (Conditional Use), Planning Commission Review (Preliminary Plat), Technical Review.

The conditional use approval (Planning Commission approval) is required prior to preparation of the subdivision preliminary plat to ensure that the recommendations of the Planning Commission are properly incorporated into the preliminary plat.

Re-Zone (Zoning Map Amendment): A request to change the existing zoning (re-zone) requires: review and recommendation from the planning commission (Public Body Review) and final decision by the council (Additional Public Body Review) and technical work (Technical Review) for map and index work).

Signs: Signs vary in the type and complexity of review process required therefore they are listed under several review types. It is intended that the fees are assessed per review process and not per sign. For example, a business that had 2 signs requiring Planning Commission review would be charged for 1 Planning Commission review. However, a business which had 1 sign which required Planning Commission review and another sign which did not would be charged for 1 Planning Commission review and 1 staff review.

Subdivision: A request to subdivide property requires review and approval of a preliminary plat, and a Technical Review of the Final Plat. Additionally, an Agency Review Meeting is required. Note that in the case of a "one-lot" subdivision there might also be an Administrative Review for the proposed Single-Family Dwelling. Fees may include: Agency Coordination Meeting, Planning Commission Meeting, Technical Review, Staff Review of a Site Plan.

Valuation: The estimated construction cost for a project.

Glossary of Terms

Condominium Plat: The procedure to review and record a condominium plat is subject to the Condominium Ownership Act (57.8- Utah Code). Staff review includes addressing all units, a review to verify compliance with the zoning ordinance and conditions of approval previously imposed and an engineering review to verify compliance with platting requirements.

Director: The Director of Planning and Development or designee.

General Plan Amendment: Planning Commissions make a recommendation to the Council who must authorize Amendments to a General Plan. A study that includes public involvement is conducted after Council gives the direction to proceed to the Development Services Director.

Home Daycare I Pre-school Application Fees: Although a home daycare or pre-school may be operated out of a private residence, it is not considered or reviewed in the same manner as a home business. Therefore, they are listed separately in the fee schedule and in the ordinance.

Modification to a Recorded Subdivision Plat: Utah Code requires a specific process be followed to amend, vacate or alter a recorded subdivision plat. This involves application, notice, a public hearing before the planning commission and executive (commonly referred to as a 608 hearing/ Mayor's Meeting). Additionally, an engineering review of the preliminary and final plat prior to approval and recording is required. Fees may include Planning Commission Review, Additional Public Body Review, Technical Review.

MSD: Means the Greater Salt Lake Municipal Services District, which the Town of Copperton has contracted with to provide planning and zoning, building permit, business license, and code enforcement services

PUD (Planned Unit Development): In those zones which allow development of a PUD they are listed as a Conditional Use, which requires review by the Planning Commission. For developers who intend to sell individual lots within the PUD both the Planning Commission Review, Conditional Use and a Subdivision Preliminary Plat review would be required, and a Technical Review prior to final approval is also required. Per the fee schedule each of these reviews requires separate fee.

Additionally, because more than one review process is required the application would also involve an Agency Review Meeting. Fees may include: Agency Coordination Meeting, Planning Commission Review (Conditional Use), Planning Commission Review (Preliminary Plat), Technical Review.

The conditional use approval (Planning Commission approval) is required prior to preparation of the subdivision preliminary plat to ensure that the recommendations of the Planning Commission are properly incorporated into the preliminary plat.

Re-Zone (Zoning Map Amendment): A request to change the existing zoning (re-zone) requires: review and recommendation from the planning commission (Public Body Review) and final decision by the council (Additional Public Body Review) and technical work (Technical Review) for map and index work).

Signs: Signs vary in the type and complexity of review process required therefore they are listed under several review types. It is intended that the fees are assessed per review process and not per sign. For example, a business that had 2 signs requiring Planning Commission review would be charged for 1 Planning Commission review. However, a business which had 1 sign which required Planning Commission review and another sign which did not would be charged for 1 Planning Commission review and 1 staff review.

Subdivision: A request to subdivide property requires review and approval of a preliminary plat, and a Technical Review of the Final Plat. Additionally, an Agency Review Meeting is required. Meeting Date:

September 2, 2026

File Number & Project Type:

OAM2026-001628

Amending section 19.50.020 of the zoning ordinance to clarify the exemptions from landscaping requirements that apply to single and two family dwellings.

Planner: Curtis Woodward

Key Findings:

1. The original intent of 19.50.020 was to require a minimum landscape requirement for homes.
2. Generally applicable regulations were added to Chapter 19.50 that should also apply to single and two family dwelling lots.

Staff Recommendation:

Staff is asking for a positive recommendation to the Council.

Exhibits:

Proposed ordinance

PROJECT DESCRIPTION

This ordinance amendment clarifies that new single- and two- family dwellings constructed in Copperton are required to comply with basic front yard landscaping requirements but are exempt from the irrigation zone/water budget standards and the landscape design standards. The ordinance also clarifies that they are not exempt from landscape maintenance ordinances, including weed abatement and tree trimming within or adjacent to the public right of way.

ISSUES/CONCERNS**Issue:**

The original intent of 19.50.020.D was to limit the landscaping installation requirement for new single- and two- family dwellings to basic landscaping in front yards and street-facing side yards as set forth in 19.50.040.C of the code. However, other sections of Chapter 19.50 address issues of ongoing yard maintenance, including weed abatement and keeping trees trimmed away from sidewalks and streets.

Analysis:

The proposed amendment is intended to clarify the requirements that apply minimum requirements for landscaping at the time of new home construction, while also holding property owners responsible for cutting down/removing weeds and keeping trees trimmed as to not interfere with sidewalk or roadway use.

Recommendation:

Staff recommends approval as drafted.

PLANNING COMMISSION OPTIONS:

As a recommending body to the Council for zoning map amendments and text changes, the planning commission has the following options:

EXHIBIT A

19.50.020 Scope And Applicability

The standards of this Chapter apply to:

- A. New Development. Any new development and/or off-street parking facilities shall comply with the provisions of this Chapter. Existing landscaping must be made to conform to the provisions of this ordinance when landscaping for public agency projects, or private commercial, industrial, or multifamily projects are modified or rehabilitated. Routine maintenance does not qualify as a modification or rehabilitation.
- B. Building Additions. Building additions which increase building coverage by twenty percent (20%) or more require the entire property to fully comply with this Chapter. Single and two-family dwellings are subject to this part only if more than fifty percent (50%) of the front and side yard area is disturbed. The Director or designee may grant relief from full compliance based on exemption factors cited in Subsection 19.50.020.G.
- C. Building Renovations. Building renovations, whether involving interior or exterior work, do not trigger a requirement for the property to fully comply with this ordinance. However, if such work involves the removal of existing plants, new plants shall be installed that create comparable landscape design value.
- D. Residential Properties.
 - 1. Single and Two-Family Dwellings. Single and two-family dwellings, except where located within a planned unit development or master planned community, shall comply with 19.50.050.A(1), but are exempt from [~~all other~~] sections **19.50.030 and 19.50.040** of this Chapter.
 - 2. Fewer than Five (5) Units. Residential properties with fewer than five (5) units shall comply with the provisions of this Chapter for front yards and side yards [~~only~~]. The rear yard is not subject to the requirements of **sections 19.50.030 and 19.50.040 of** this Chapter.
 - 3. Five (5) or More Units. Residential properties or developments with five (5) or more units are subject to all provisions of this Chapter, including rear yards.
- E. Off-Street Parking Expansions.
 - 1. Fifty Percent (50%) or less. A parking expansion which increases the number of parking stalls by fifty percent (50%) or less requires that the newly established expansion area be brought into compliance with both the interior and exterior/perimeter landscape requirements of this Chapter.
 - 2. Fifty Percent (50%) or more. A parking expansion which increases the number of parking stalls by fifty percent (50%) or more requires that the entire expansion area be brought into compliance with both the interior and exterior/perimeter landscape requirements of this Chapter. The pre-existing parking area, while not required to be retroactively brought into compliance with this Chapter's interior parking area landscape requirements, shall be made to conform to exterior/perimeter area landscape standards.
 - 3. Repeated Expansions. Repeated expansions of parking facilities over time are combined in determining whether the fifty percent (50%) threshold has been reached.
- F. Exemptions. The provisions of this Chapter do not apply to the following:

1. Exemption for Historic District Contributing Buildings. Properties listed on either the State of Utah or National Historic Registers may be exempt from these regulations, subject to review by the Director or designee.
2. Exemptions from Water Allowance Limitations. Areas dedicated and used for the following specific purposes are exempt from the landscape water allowance limitations of this Chapter:
 1. Sports fields;
 2. Turf areas within public parks;
 3. Golf courses; and
 4. Cemeteries.
3. Limits to Exemptions. Although exempt from landscape water allowance limitations, all other provisions of this Chapter apply. In particular, landscaping shall be provided in the interior and perimeter areas of off-street parking facilities, adjacent to buildings, and along walkways.
